

6th Annual RCEA Bayesian Econometric Workshop

keynote speaker

Marco Del Negro

Federal Reserve Bank of New York

August 16 – 18, 2012

University of Toronto

The 6th annual Bayesian Econometric workshop from the Rimini Centre for Economic Analysis (RCEA) will take place at the University of Toronto, Ontario, Canada, August 16 – 18, 2012.

The workshop will take place inside The Rimini Conference in Economics and Finance at the same venue. We plan to run a full set of parallel Bayesian sessions inside this conference. Papers in all areas of Bayesian econometrics are welcome. Information about past Bayesian workshops can be found at <http://www.rcefa.org/>.

To submit a paper to the workshop you must submit a paper to the general conference: Cities, Open Economies, and Public Policy. To submit a paper please use the conference website www.rcef.ca. **The paper submission deadline is March 21, 2012.** Participants of the workshop will register with the general conference and have access to all of their sessions as well as the Bayesian sessions. Please follow the steps described in the "Submit a paper" section on the conference web page. You will be requested to create an account (if you don't have one from a previous year), and then log in and submit the paper. **Submit your paper to the track: Bayesian Econometric Workshop.**

Details about paper submission, accommodations and conference fees can be found at the main conference site www.rcef.ca. If you have questions specific to the workshop please contact John Maheu at jmaheu@chass.utoronto.ca.

Organizing Committee for the Bayesian Workshop
