CAREER AND COORDINATES

Director, NetLab, University of Toronto

S.D. Clark Professor of Sociology, University of Toronto

Fellow, Royal Society of Canada

Research Associate, Centre for Urban and Community Studies, University of Toronto

International Coordinator, International Network for Social Network Analysis

Senior Research Fellow, Pew Internet and Society Project

Advisory Board Member, Knowledge Media Design Institute [KMDI], University of Toronto

North American Editor, Information, Communication and Society

Consulting Editor, *Canadian Review of Sociology and Anthropology*, 2005-2010.

Professor, Faculty of Information Studies, University of Toronto [cross-appointment]

Research Associate, Institute for Human Development, the Life Course and Aging, University of Toronto

Research Associate, Centre for Urban Health Initiatives

Senior Fellow, Center for the Digital Future, Annenberg School of Communication, University of Southern California, 2006-.

Fellow, IBM Centre for Advanced Studies, Toronto, 2008 –

Fellow, Centre for Public Administration and Policies, Institute of Social and Political Sciences, Technical University of Lisbon, 2009-

International Scholarly Advisory Committee, Institute of Empirical Social Science (IESSR), Xi'an Jiaotong University (XJTU), 2009-2013

COORDINATES

**NetLab, Department of Sociology 725 Spadina Avenue
Toronto, Canada M5S 2J4

EDUCATION

Bronx High School of Science, 1959 (Honors)

B.A., Lafayette College, 1963, Honors History; *magna cum laude*; Phi Beta Kappa; ranked 1 in Arts & Science

M.A. 1965; Harvard University, Sociology (Department of Social Relations)

Ph.D. 1969, Harvard University, Sociology (Department of Social Relations)

CAREER

S.D. Clark Professor, Department of Sociology, University of Toronto, 2006 -.

Professor, Department of Sociology, University of Toronto, 1980 – 2006.

Director, Structural Analysis Programme, University of Toronto, 1979 - 1982

Associate Director, Centre for Urban and Community Studies, University of Toronto, 1980-1984

Associate Professor of Sociology, University of Toronto, 1972 - 1980 (tenured)

Research Associate, Centre for Urban and Community Studies, University of Toronto, 1970 -

Assistant Professor of Sociology, University of Toronto, 1967 - 1972

Research Sociologist, Clarke Institute of Psychiatry, Toronto, 1967 - 1969

Fellow, IBM Institute of Knowledge Management, 2001 - 2002

Visiting Professor, School of Information Management and Systems, University of California, Berkeley, 1999

Fellow, Bellagio Center of the Rockefeller Foundation, Italy, 1999

Visiting Professor, Institute for Urban and Regional Development, University of California, Berkeley, 1985

Fellow, Netherlands Inst. for Advanced Study in the Humanities and Social Sciences, 1978-1979

Visiting Professor, University of Surrey, Guildford, England, 1974-1975

DEMOGRAPHICS

Born: 1942

Married Beverly Wellman, 1965

Canadian and American citizen

SUMMARY

Professor Barry Wellman studies networks: community, communication, computer, and social. His research examines social support, virtual community, the virtual workplace, community, kinship, friendship, and social network theory and methods. Based at the University of Toronto, he directs the NetLab, is the S.D. Clark Professor at the Department of Sociology, does research at the Centre for Urban and Community Studies, the Knowledge Media Design Institute, and the Bell University Laboratories' Collaborative Environment Lab, and is a cross-appointed member of the Faculty of Information Studies.

Prof. Wellman is member of the Royal Society of Canada. He is the Chair-Emeritus of both the Community and Information Technologies section and the Community and Urban Sociology section of the American Sociological Association. He is affiliated with Intel Corporation's People and Practices research unit and is a Fellow of IBM Toronto's Centre for Advanced Studies. Prof. Wellman has been a Fellow of IBM's Institute of Knowledge Management, a consultant with Mitel Networks, a member of Advanced Micro Devices' Global Consumer Advisory Board, a keynoter at conferences ranging from computer science to theology, and a committee member of the Social Science Research Council's (and Ford Foundation's) Program on Information Technology, International Cooperation and Global Security. He is the (co-)author of about 300 articles that have been co-authored with more than eighty scholars, and he is the (co-)editor of three books.

Social Network Analysis: Prof. Wellman's intellectual approach is *social network analysis*. He founded the professional society in the field: the International Network for Social Network Analysis. His co-edited *Social Structures: A Network Approach* has been named by the International Sociological Association as one of the "Books of the Century" (Cambridge University Press, 1988; updated ed., JAI Press, 1997; reprinted, Canadian Scholars Press International, 2002). Prof. Wellman has published articles about the theory, methods and substance of social network analysis. He coined the terms "network city" in 1973, "network of networks" in 1983, "networked individualism" in 2000, and (with Keith Hampton) pioneered the use of the term "glocalization" in discussing computer mediated communication networks.

Research Focus: Prof. Wellman is currently studying with his *NetLab* team:

- The *Connected Lives* study – the *third* study of the Toronto borough of East York: the interplay between social networks, community and Internet use.
- *Connected Lives North*: social networks and Internet use in the rural northern Ontario town of Chapleau.
- Multiple large U.S. surveys with the *Pew Internet* and American Life project for detailed analyses of how people use computers in their everyday lives: at home, in the community, and at work.
- How ethnically *Chinese entrepreneurs* use the Internet and other means of communication and transportation to *link* Canada and China.
- The paradigm shift from group-centered relations to *networked individualism*.
- How *loosely-coupled networked organizations* discover, access and *manage knowledge*, on and offline.
- Sociologically-informed *design principles* for *ad hoc networking systems* in which people *work* and *find community* with shifting sets of others.
- The "glocalization" (globalization + localization) that comes with *wired living* via advanced connections to the Internet and other online services.

- Using *Statistics Canada* and *World Internet Project* surveys of how the Internet affects *linkages, social cohesion, social capital, and social transformation*.
- *International comparisons of information and communication technologies*, with special emphases on Japan, United States and Canada.
- The *spatiality of personal networks*: To what extent are ties with friends and relatives affected by the physical distance between them?
- *Reciprocity in social networks*: To what extent do people exchange the same or different kinds of emotional and material aid with each other or other network members?

Computer Networks as Social Networks: Much of Prof. Wellman's work analyzes *computer networks as social networks*. In the 1990s, Prof. Wellman worked with computer scientists and information scientists at the University of Toronto and the private sector to design, development and evaluate the *Cavecat/Telepresence* system for computer supported cooperative work. This combination of personal video and collaborative computing enabled people to communicate, work and commune over large distances. With Caroline Haythornthwaite, he edited a special issue of the *American Behavioral Scientist*, *The Internet in Everyday Life* (Nov, 2001), which was substantially revised and expanded into a book of the same name (Oxford: Blackwell, 2002). He also was the Technology and Community editor of the *Encyclopedia of Community* (Sage, 2003).

Communities as Social Networks: Since the late 1960s, Prof. Wellman has developed the study of *communities as social networks*: demonstrating that communities are no longer limited to neighborhoods. He has been studying the ways in which people use these ties to gain resources, and the implications of these networks for large-scale social organization. His current research in this area focuses on multilevel analyses of support, reciprocity in *personal community networks* in an era of "networked individualism". In 1999, he published *Networks in the Global Village* (Westview Press), an edited volume of original analyses of personal communities around the world, each written by a resident of the country being discussed.

Interdisciplinary Links: Much of Prof. Wellman's research has been collaborative and interdisciplinary, including work with communication scientists, computer scientists, educators, geographers, historians, information scientists, lawyers, psychiatrists, psychologists, statisticians, and theologians.

International Links: Prof. Wellman founded and headed the International Network for Social Network Analysis in 1976. He collaborated on a study of the Internet in Catalonia (with Manuel Castells and Isabel Diaz de Isla) and is now doing similar work in Japan (with Kakuko Miyata, Ken'ichi Ikeda and Jeffrey Boase). He is collaborating with Wenhong Chen in studying transnational entrepreneurial networks. His work has been translated into Bulgarian, Catalan, Chinese, French, German, Hungarian, Italian, Japanese, Spanish, and Portuguese. He is a Fellow of the Centre for Public Administration and Policies, Institute of Social and Political Sciences, Technical University of Lisbon, and is a member of the International Scholarly Advisory Committee of the Institute for Empirical Social Science, Xi'an Jiaotong University, China. He has lectured and held workshops about social network analysis in Bulgaria, Brazil, Canada, Chile, China, France, Germany, Hong Kong, Hungary, India, Israel, Japan, the Netherlands, Peru, Portugal, Spain, Switzerland, Taiwan, the United Kingdom, and the USA. His work has been linked to research and development at AMD, Bell Canada, IBM, Mitel Networks and Nokia. He has keynoted in North and South America, Europe and Asia.

Editorial Posts: Prof. Wellman founded the informal social network analytic journal, *Connections*, in 1977 and edited/published it for twelve years. He was the principal founder of a new sociology journal, *City and Community*, whose first issue appeared in March 2002, and served as an Associate Editor through 2005. He has been the Book Essay co-editor of *Social Networks*, and is the North American editor of *Information, Communication and Society*. He serves on a number of other editorial boards.

Prof. Wellman has published in a wide array of books and journals, including: *American Behavioral Scientist*, *American Journal of Sociology*, *Annual Review of Sociology*, *Bulletin de Methode Sociologique*, *Canadian Review of Sociology and Anthropology*, *Communication Yearbook*, *Communications of the Association for Computing Machinery*, *Cultural Anthropology Methods Bulletin*, *Current Sociology*, the *Encyclopedia of Psychology*, the *Encyclopedia of Mental Health*, *History of the Family*, *International Journal of Urban and Regional Research*, *Journal of Computer Mediated Communication*, *Journal of the American Society for Information Science*, *Journal of Social and Personal Relationships*, *Journal of Interdisciplinary History*, *Marriage and Family Review*, *Roundel* [BMW Car Club], *Science*, *Social Networks*, *Sociological Methods and Research*, *Sociological Theory*, *Sociological Research Online*.

Teaching: Prof. Wellman teaches graduate and undergraduate courses in Urban Sociology, Community, Social Network Analysis, Information and Communication Technology and Society, and Research Methods. Prof. Wellman received the International Network for Personal Relationships' Mentoring Award in 1998. He was the second place winner of the International Society for Personal Relationships' Outstanding Teaching Award (1996). At the University of Toronto, the Department of Sociology has named its undergraduate research prize after him (the "Barry Wellman Prize").

Honors: Prof. Wellman was elected a Fellow of the Royal Society of Canada in 2007. In 2006, the Department of Sociology awarded the S.D. Clark Endowed Chair to him.

Prof. Wellman received an Outstanding Career Contribution Award by the Canadian Sociological and Anthropological Association (2001). He has received Outstanding Career Contribution Awards from two sections of the American Sociological Association: Communication and Information Technologies (2004) and Community and Urban Sociology (2006). In 2008, the International Communication Association gave him its initial "Open Field Award" for work that "has been very influential in media and communication research" "from outside the discipline of communications." In May 2008, his "networked individualism" work was included in the national English-language entrance exam for Chinese universities.

The Department of Sociology at the University of Toronto honored him in April 2001 with the "Barryfest" conference: "Social Structure in a Changing World – Presentations in Honour of Barry Wellman".

Prof. Wellman's "The Community Question" article (*American Journal of Sociology*, 1979) about networked communities was selected as one of the seven most significant English-Canadian sociology articles of the 20th century by the Canadian Journal of Sociology (Summer 2001). His co-edited *Social Structures* book was cited as one of the hundred most significant sociological books by the International Sociology Association. It presents a score of original articles exemplifying social network analysis (Cambridge University Press, 1988; JAI-Elsevier, 1997). Four of his articles, representing the range of his work, have been anthologized in *Social Networks: Critical Concepts in Sociology*, edited by John Scott: "Structural Analysis: From Method and Metaphor ...", "The Community Question," "The Place of Kinfolk ..." and "Net Surfers Don't Ride Alone."

Prof. Wellman has been a Fellow of the Bellagio Center (Rockefeller Foundation), the Netherlands Institute for Advanced Studies, and the Halbert Foundation (Hebrew University). In 1999 he was a Visiting Professor at the School of Information Management and Systems, University of California, Berkeley. He was the Distinguished Keynote Speaker of the International Network for Social Network Analysis in 1994, that society's highest honor. He was second prize winner of the International Society for Personal Relationships' Outstanding Teaching Award (1996), a finalist for its Outstanding Publication award, and a multiple winner of the University of Toronto's Dean's Excellence Award. Prof.

Wellman's website has been an "Expert's Choice" of the Social Science Information Gateway (UK). He was awarded a "Society Barnstar" and a "Diligence Barnstar" in 2007 for his work on Wikipedia, and his "Geekus Unixus" paper was nominated in 2007 for the Ignobel Award in Writing.

Leadership: Barry Wellman heads the *NetLab* research network at the University of Toronto.

He founded the International Network for Social Network Analysis in 1976, headed this interdisciplinary body until 1988, and continues as its International Coordinator, Executive Committee member, and "Ties & Bonds" columnist. Prof. Wellman is the Chair-Elect of the Communication and Information Technologies section of the American Sociological Association. He is one of the few persons to chair two sections, having previously served as Chair of the ASA's Community and Urban Sociology section. He has also been on the Council of the ASA's Community section, and its Sociology and Computing section, as well as the Community Research section of the International Sociological Association. Prof. Wellman was elected to the Executive Committee of the interdisciplinary Association of Internet Researchers in October 2001. Prof. Wellman was selected in 1994 as one of the five active Canadian members of the Sociological Research Association (the American honor society), was named in 2000 to its Executive. He rose inexorably through the Executive ranks to be the Association's Chair, 2004-2005. He has also been selected for the *Canadian Who's Who*.

Prof. Wellman was the American Sociological Association's first Advisor on Electronic Networking and the first Chair of the ASA's Electronic Publications committee. He is the Advisor of the "Virtual Communities and Environments" Focus Area for the Association for Computing Machinery's Special Interest Group on Supporting Group Processes. He was a founding member of the Association for Computing Machinery's Electronic Community Center committee, and he was a developer of the National Geographic Society's *Web Survey 2000* on "millennium trends" and *Web Survey 2001* investigating "the internet in everyday life". He founded the Structural Analysis Program at the Department of Sociology and led it, 1979-1983. He is on the Steering Committee of the University of Toronto's Knowledge Media Design Institute (KMDI), and on the editorial board of eleven journals.

Conjugal Connection: Barry has been married with Beverly Wellman since 1965. A medical sociologist, Beverly Wellman is the co-editor (with Merrijoy Kelner) of *Complementary and Alternative Medicine: Challenge and Change* (Reading, UK: Taylor & Francis, 2001). She and Dr. Kelner are the co-authors of numerous articles analyzing the uses and professionalization of complementary and alternative medicine. Her life career has included being a modern dancer, a teacher of primary grades and creative movement, and a student and practitioner of the Alexander and Laban techniques.

Biographical Notes: Prof. Wellman was educated on the streets of New York City, and at P.S. 33, Creston JHS 79, the Bronx High School of Science (Honors, 1959), Lafayette College (Honors B.A. in History, 1963), and Harvard University (M.A. in Social Relations, 1965; Ph.D. in Sociology, 1969). His doctoral thesis examined how race, class, and school segregation affect adolescent identity and cosmopolitanism in Pittsburgh at the time of the civil rights movement.

Barry Wellman was Captain of Lafayette College's undefeated *GE College Bowl* team in 1962. In April 2003, he and the team returned Lafayette for a fortieth anniversary reunion where they lectured about their work and defeated current undergraduates in a College Bowl game, 320-150. Barry Wellman has appeared in other television and radio shows, and was featured in a feature-length documentary movie (*What If...*) about the late science-fiction writer (and friend) Judith Merril. He was the only academic whose picture hung among the performing artists in Toronto's historic "Bagel" restaurant, until its demise in 2004.

Barry Wellman

Retrieved from Wikipedia, the free encyclopedia, June 25, 2007. All text is available under the terms of the GNU Free Documentation License.

Barry Wellman, FRSC (b. 1942) directs NetLab as the S.D. Clark Professor of Sociology at the University of Toronto. His areas of research are community sociology, the Internet, human-computer interaction and social structure, as manifested in social networks in communities and organizations. His overarching interest is in the paradigm shift from group-centered relations to networked individualism

Early Life

Wellman was born, bar mitzvahed and raised in the Grand Concourse and Fordham Road area of the Bronx, New York City. He attended P.S. 33 and Creston J.H.S. 79, and was a member of the Fordham Flames. He gained his high school degree from the Bronx High School of Science in 1959. He received his A.B. (Bachelor's) degree magna cum laude from Lafayette College in 1963, majoring in social history and winning prizes in both history and religious studies. At Lafayette, he was a member of the McKelvy Honors House and captained the undefeated 1962 College Bowl team), whose final victory was over Berkeley. [1]

His graduate work was at Harvard University, where he trained with Chad Gordon, Charles Tilly and Harrison White, and also studied with Roger Brown, George Homans, Alex Inkeles, Florence Kluckhohn, Talcott Parsons and Phillip J. Stone. He received M.A. in Social Relations in 1965 and a Ph.D. in Sociology in 1969. His focus was on community, computer applications, social networks and self-conception, and his dissertation showed that the social identities of African-American and White American Pittsburgh junior high school students were related to the extent of segregation of their schools.

Barry Wellman has been married since 1965 with Beverly Wellman, a leading researcher in complementary and alternative medicine.

Community Sociology

Wellman has been a faculty member at the University of Toronto since 1967. Until 1990, he focused on community sociology and social network analysis. During his first three years in Toronto, he also held a joint appointment with the Clarke Institute of Psychiatry. His first project at the Clarke, working with D.B. Coates was co-directing the "Yorklea Study" in the Toronto borough of East York. This first East York study, with data collected in 1968, attempted (unsuccessfully) to do a field study of a large population, linking interpersonal relations with psychiatric symptoms. However, the study was notable for pioneering the study of "social support", documenting the prevalence of non-local friendship and kinship ties, demonstrating that community is no longer confined to neighborhood and studying non-local communities as social networks. Wellman's "Community Question" paper, reporting on this study, has been selected as one of the seven most important articles in English-Canadian sociology. [2]

A second East York study, conducted in 1978-1979 at the University of Toronto's Centre for Urban and Community Studies, used in-depth interviews with 33 East Yorkers (originally surveyed in the first study) to find out much more information about their social networks. It was probably the first study to provide evidence about which kinds of ties and networks provide which types of social support. It showed, for example, that sisters provide siblings with much emotional support, while parents provide financial aid.[3] The support seems to come more from the characteristics of the ties than from the networks in which they are embedded.[4] This research also demonstrated that wives maintain social networks for their husbands as well as for themselves. [5]

Although Wellman's work has shifted primarily to studies of the Internet (see section below), he has continued collaborative analyses of the first and second East York studies, showing that reciprocity (like social support) is much more of a tie phenomenon than a social network phenomenon[6] and that the frequency and supportiveness

of interpersonal contact before the Internet was non-linearly affected by residential (and workplace) distance.[7] He has also edited *Networks in the Global Village* (1999), a book of original articles about personal networks around the world.

Social Network Theory

Concomitant with his empirical work, Wellman has contributed to the theory of social network analysis. The most comprehensive statement is in his introductory article to *Social Structures*, co-edited with the late S.D. Berkowitz. This work reviews the history of social network thought, and suggests a number of basic principles of social network analysis.[8]

More recent and more focused theoretical work has discussed the "glocalization" of contemporary communities (simultaneously "global" and "local")[9] and the rise of "networked individualism" -- the transformation from group-based networks to individualized networks.[10]

Social Network Methods

Wellman's methodological contributions have been for the analysis of ego-centered or "personal" networks -- defined from the standpoint of an individual (usually a person). As batches of personal networks are often studied, this calls for somewhat different techniques than the more common social network practice of analyzing a single large network.

A 2007 paper, co-authored by Wellman (with Bernie Hogan and Juan-Antonio Carrasco), has discussed alternatives in gathering personal network data.[11] A paper with Kenneth Frank showed how to tackle the problem of simultaneously analyzing personal network data on the two distinct levels of ties and networks.[12] The most widely cited papers are the simplest:

Co-authored guides to analyzing personal network data while using the statistical software packages SAS and SPSS.[13] Other work by Wellman with Howard D. White and associates has examined how to link social network analysis with the scientometric study of citation networks. This research has shown that scholarly friends do not necessarily cite each other, but that scholars cited in the same article are apt to seek each other out and become friends.[14]

Internet, Technology and Society

Wellman at the International Conference on Communities & Technologies, Amsterdam, 2003

Barry Wellman has often worked in collaboration with computer scientists, communication scientists and information scientists. In 1990, he became involved in studying how ordinary people use the Internet and other communication technologies to communicate and exchange information at work, at home and in the community. Thus his work has expanded his interest in non-local communities and social networks to encompass the Internet, mobile phones and other information and communication technologies.

Work Networks and ICTs

Wellman's initial project ("Cavecat" which morphed into "Telepresence") was in collaboration with Ronald Baecker, Caroline Haythornthwaite, Marilyn Mantei, Gale Moore, and Janet Salaff. This was a pioneering effort in the early 1990s, before the advent of the Internet, to use networked PCs for videoconferencing and computer supported collaborative work (CSCW).[15] Caroline Haythornthwaite (for her dissertation, etc.) and Wellman

analyzed why computer scientists connect with each other -- online and offline. They discovered that friendships as well as collaborative work were prime movers of connectivity at work.[16].

Wellman and Anabel Quan-Haase also wondered if such computer-supported work teams were supporting networked organizations, in which bureaucratic structure and physical proximity did not matter. Their research in one high-tech American organization -- heavily dependent on instant messaging and e-mail showed that the supposed ICT-driven transformation of work to networked organizations was only partially fulfilled in practice. The organizational constraints of departmental organization (including power) and physical proximity continued to play important roles. There were strong norms in the organization for when different communication media were used, with face-to-face contact intertwined with online contact. [17]

Community Networks and ICTs

As a community sociologist, Wellman began arguing that too much analysis of life online was happening in isolation from other aspects of everyday life. He published several papers (alone and with associates) arguing the need to contextualize Internet research, and proposing that online relations -- like off-line -- would be best studied as ramified social networks rather than as bounded groups.[18]. This argument culminated in a 2002 book, *The Internet in Everyday Life* (co-edited with Caroline Haythornthwaite), providing exemplification from studies in a number of social milieus.

Prof. Wellman also led some of the empirical work in this area. He was part of a team (led by James Witte) that surveyed visitors to the National Geographic Society's website in 1998. Wellman's unit used these data to counter the dystopian argument that Internet involvement was associated with social isolation.[19]

Some critics wondered if the non-random nature of the National Geographic web survey had distorted the results. However, the large U.S. national survey analyzed in the Pew Internet report, "The Strength of Weak Ties" (with Jeffrey Boase, John Hannigan and Lee Rainie) also showed a positive association between communication online and communication by telephone and face-to-face. The study showed that email is well-suited for maintaining regular contact with large networks, and especially with relationships that are only somewhat strong. The study also found that Internet users get more help than non-users from friends and relatives. [20]

Research into the "glocalization" concept also fed into this intellectual stream. Keith Hampton and Wellman studied the Toronto suburb of "Netville" a pseudonym". It showed the interplay between online and offline activity, and how the Internet -- aided by a list-serve -- is not just a means of long-distance communication but enhances neighboring and civic involvement. [21]

Wellman's current work continues to focus on the interplay between information and communication technologies, especially the Internet, social relations and social structure. For example, he is collaborating on Wenhong Chen's study of transnational immigrant entrepreneurs who link China and North America.[22]

Wellman's major current focus is as the head of the Connected Lives project studying the interplay between communication, community and domestic relationships in Toronto and in Chappleau in rural northern Ontario. Early findings of the interplay between online and offline life are summarized in "Connected Lives: The Project".[23] More focused research (with Jennifer Kayahara) has shown how the onetime two-step flow of communication has become more recursively multi-step as the result of the Internet's facilitation of information seeking and communication.[24]. Recent research (with Tracy Kennedy) has argued that many households, like communities, have changed from local groups to become spatially- dispersed networks connected by frequent ICT and mobile phone communication.[25] Other NetLab researchers, besides those noted in the text and the notes, include Prof. Dean Behrens , and doctoral students Paul Glavin and Jing Shen.

Teaching and Mentoring

Wellman is known for his interactive style of teaching and extensive mentoring of graduate and undergraduate students in courses about community, social network analysis, and technology and society. He has co-authored with more than 80 persons, almost all of whom were his students. He received the International Network for Personal Relationships' "Mentoring Award" in 1998.

Offices

Professor Wellman founded the International Network for Social Network Analysis in 1976-1977 and led it until 1988. Concomitantly, he founded, edited and published INSNA's informal journal, Connections.

In 1979, he founded the University of Toronto's "Structural Analysis Programme" in the Department of Sociology, focused on studying social structure and relationships from a social network perspective, and he led the twelve-person virtual research centre until 1982. The Department of Sociology subsequently established the "Barry Wellman Award" for excellence in undergraduate research.

Council member and then President of two sections of the American Sociological Association:

Community and Urban Sociology (1998-2000), where he led the team that found the journal, City and Community;

Communications and Information Technologies (2005-2006), which increased in membership from 95 to 303.[26]

Elected to the Council (2000) and then became President of the Sociological Research Association honor society (2004-2005).

Currently the North American editor of the journal Information, Communication and Society.

Associate Director of the Centre for Urban and Community Studies, University of Toronto, where he was based, 1970-2007.

Awards

Career achievement awards from:

The Canadian Sociology and Anthropology Association (2001)

The International Network for Social Network Analysis (1994)

Community and Urban Sociology section of the American Sociological Association (2006)

Communication and Information Technologies of the American Sociological Association(2004).

Mentoring Award, International Network for Personal Relationships (1998).

Elected to the Sociological Research Association honor society (1994).

S.D. Clark endowed chair at the University of Toronto (2006). [27][28]

Fellow of the Royal Society of Canada, FRSC (2007)

Erdős number of 3.

Residencies at the:

Netherlands Institute for Advanced Studies, Wassenaar (1978-1979)

Rockefeller Foundation Study and Conference Center, Lake Como Italy (1999);

World Internet Project's headquarters at the University of Southern California (2006),

University of Surrey (Guildford England, 1974-1975),

University of California, Berkeley -- Institute for Urban and Regional Development (1985) and School of Information Management and Systems (1999)

Publications

Wellman is the editor of three books, and the author of more than 200 articles. His books are:
Social Structures: A Network Approach (with the late S.D. Berkowitz; Cambridge University Press, 1988);
Networks in the Global Village (Boulder, CO: Westview 1999);
The Internet in Everyday Life (with Caroline Haythornthwaite; Oxford: Blackwell 2002).

Wellman has an extensive website with many of his publications available for reading. He has also compiled, for fun, Updating Cybertimes (<http://chass.utoronto.ca/oldnew/cybertimes.php>): a site that translates songs, movies, popular culture and historical figures from pre-Internet days to current times.

HONORS

International Scholarly Advisory Committee, Institute of Empirical Social Science (IESSR), Xi'an Jiaotong University (XJTU), 2009-2013

Fellow, Centre for Public Administration and Policies, Institute of Social and Political Sciences, Technical University of Lisbon, 2009 -

Blurb for *How Wikipedia Works*, by Phoebe Ayers, Charles Matthews and Ben Yates. San Francisco: No Starch Press, 2008.

Listed as one of "Canada's Cyber Celebs," *Webslinger*, July 1, 2008. <http://glenfarrelly.blogspot.com/>
"Networked Individualism" research selected for national English language university entrance exam, China, May 2008.

"Communication Research as an Open Field" Award, 2008, from the International Communication Association for a researcher who has "made important contributions to the field of communications from outside the discipline of communications." First time this prize has been awarded.

Elected Fellow, Royal Society of Canada, 2007

Appointed S.D. Clark Professor of Sociology, University of Toronto, Fall 2006

Robert and Helen Lynd Award for Outstanding Career Contribution, American Sociological Association, Community and Urban Sociology section, 2006.

Chair, Communication and Information Technologies section, American Sociological Association, 2004-2005.

Outstanding Lifetime Achievement Award, American Sociological Association, Communications and Information Technologies section, 2004.

"Does the Internet Increase, Decrease, or Supplement Social Capital?"(2001) article ranked as the Most Frequently Read in the American Behavioral Scientist (September 2007); 2nd most frequently read, January 2010

Research selected as Two out of Nine "Milestones in the Evolution of the Concept of Community in the United States [sic], 1950-2000". In John Bruhn, *The Sociology of Community Connections*, Berlin: Springer, 2004, p. 39. The milestones are:

- (1) Communities are networks and not local solidarities; the city is a network of networks:**
- (2) The internet helps connect local and dispersed community members on and offline.**

Selected Faculty Fellow, Centre for Advanced Studies, IBM Toronto Laboratory, January 2008 -.

"Society Barnstar" award, *Wikipedia*, September 2007, "for great work on social science articles, and making Wikipedia a better place."

"Diligence Barnstar" award, *Wikipedia*, October 2007, "for your dogged approach to the protection of your favorite articles."

"Editor of the Month" May 2004 by Berkshire Reference Works for editing Internet and Community section of *Encyclopedia of Community* (Sage, 2003).

Member, Global Consumer Advisory Board, Advanced Micro Devices (AMD), Jan 2002 – Jan 2004.

Elected, Committee on Sections, American Sociological Association, 2003-2006.

Technology Terminology and Complexity Study (AMD Global Consumer Advisory Board, with Citigate Cunningham) Gold Prize Magellan Award winner for "Publicity Campaign Computers", League of American Communications Professionals, 2003.

Selected as "High-Performing Researcher," Social Science and Humanities Council of Canada, July 2003.

Elected founding Executive Committee member, Association of Internet Researchers, 2001 – 2004

Website selected as "Expert's Choice" for Social Science Information Gateway (UK): "an excellent source of material on network analysis and the integration of electronic and social networks." [www.sosig.ac.uk/experts-choice/experts/duncan_timms.html].

Included in the gateway, July 2002: www.sosig.ac.uk/roads/cgi-bin/tempbyhand.pl?view=full&database=sosigv3&query=1010072173-26.

Reconfirmed Feb 2003: <http://www.sosig.ac.uk/resource?database=SOSIG&query=992619187-5417>

Fellow, IBM Institute for Knowledge Management, 2001-2002.

Listed in "BestCelebritySites.com" along with Britney Spears and 50K+ others. May 5 2001.
[<http://bestcelebritysites.com/cgi-bin/pod.cgi/Computers/Internet/Cyberspace/Culture/>]

"The Community Question" (1979) selected as one of the 7 Top English-Canadian Articles of the 20th-century by the Canadian Journal of Sociology (Summer 2001).

Outstanding Lifetime Contribution Award, Canadian Sociological and Anthropological Association, 2001.

Social Structures: A Network Approach (ed. by Barry Wellman and S.D. Berkowitz) named as one of International Sociological Association's "Books of the Century," April 2001.

"BarryFest" celebratory conference ["Social Structure in a Changing World: Presentations in Honour of Barry Wellman], Dept of Sociology, Univ of Toronto, April 2001

Fellow, Bellagio Centre [Rockefeller Foundation], Italy, October-November, 1999

Chair, Community and Urban Sociology Section, American Sociological Assoc, 1998-2000.

Web Page of the Month, Knowledge Media Design Institute, Univ of Toronto, April, 1998.

Mentoring Award, International Network for Personal Relationships, 1998.

Listed, *Canadian Applied Science and Technology Registry [aka Who's Who in Canadian High-Tech]*, 1998.

Elected, Council, Sociology and Computing section, American Sociological Association, 1997-1999.

Web Page of the Month, Dept. of Sociology, Univ. of Toronto, Dec, 1997.

Picture Posted on Bagel Restaurant's Wall of Fame, College St., Toronto. Nov, 1997.

Outstanding Teaching Award, Second Place, International Society for the Study of Personal Relationships, 1996.

Outstanding Publication Award, Finalist, Int'l Society for the Study of Personal Relationships, 1996.

Nominated, Council of Organizations, Occupation and Work section, American Sociological Assoc, 1995.

Halbert Exchange Fellowship, Hebrew Univ, Jerusalem, April-May, 1995.

Elected, Sociological Research Association [honor society], 1994 Member, Executive Nominations Committee, 1996; Elected, Executive Committee, 2000, rising through ranks to be Chair, 2004-2005; Chair, Executive Nominations Committee, 2001-2002; Chair, Membership Committee, 2002-2003; Secretary-Treasurer, 2003-2004, President, 2004-2005.

Info Technology Research Centre "Innovation Award" to the Telepresence Project, Sept. 1994.

Plenary Speaker, International Society for the Study of Personal Relationships, Groningen, Neth., July, 1994.

Distinguished Keynote Speaker, International Sunbelt Social Network Conference, New Orleans, Feb. 1994. [highest honor of society]

Top-ranked social science proposal, Connaught Foundation Transformative Grant, 1994.

Proposal to study networks ranked 4/135 by Social Sciences & Humanities Research Council, 1994.

Identified as 2nd most prominent scholar in social network analysis. Study by Kathleen Carley & Norman Hummon (Social Networks, 1993).

Listed, *Canadian Who's Who*, 1993 -.

Voted Reggae King, Grand Lido Hotel, Negril, Jamaica, Dec., 1993.

Research Highlight, Social Science and Humanities Research Council of Canada, *Annual Report 1992-1993*

Dean's Excellence Award, Faculty of Arts and Science, Univ. of Toronto, 1991, 1992, 1993.

Barry Wellman Award, established 1990 by Dept. of Sociology, Univ. of Toronto, for year's best undergraduate research paper.

“SAS Success Story” award for innovative computer program for ego-centered network analysis, 1990.
 Third Place, Spring Rally, BMW Car Club of Canada, 1990.
Second Prize, Best Paper in Sociological Theory, American Sociological Association, 1984.
Social Science and Humanities Research Council of Canada Leave Fellowship, 1983 - 1984
Fellow, Netherlands Institute for Advanced Study. 1978 - 1979.
 Canada Council Sabbatical Leave Fellowship, 1974 - 1975.
Woodrow Wilson Fellowship, 1963 - 1964; NSF Graduate Fellowship 1964- 1967.
Ranked First in Arts & Science: Magna cum laude honors, Lafayette College, 1963.
Elected to Phi Beta Kappa; Elected to Phi Alpha Theta, History Honors Society
American Friends of Lafayette Medal, 1963: Outstanding History Major;
Porter Bible Prize, Lafayette College, 1963. Excellence in Religious Studies.
Captain & highest scorer, Lafayette College team, Undefeated on "GE College Bowl", CBS-TV, 1962.
 Beat Berkeley for final victory.
SAT [Scholastic Aptitude Test] score=1598/1600, Bronx High School of Science, 1958
 Varsity Letter winner in Track (mile relay) and Cross-Country, Bronx High School of Science,
 1956-1959.

PROFESSIONAL AFFILIATIONS AND ACTIVITIES

BOARDS

Founder and Coordinator, International Network for Social Network Analysis, 1976 - 1988.
International Coordinator, 1988 –
 International Scholarly Advisory Committee, Institute of Empirical Social Science (IESSR), Xi'an
 Jiaotong University (XJTU), 2009-2013
 Member, International Communication Association Selection Committee for Communication Research as
 an Open Field Award, 2008-2009.
 Chair, Community and Urban Sociology Section Career Achievement Awards Committee, American
 Sociological Association, 2008-2009.
 Chair, Communications and Information Technologies Section Career Achievement Awards Committee,
 American Sociological Association, 2007-2009 (Member, 2006-2007).
 Founding Board member, Philip Stone Center, Mani Losaj, Croatia, 2007 –
**Chair, Community and Urban Sociology Section Publications Oversight Committee, American
 Sociological Association, 2005-2008.**
Advisory Board Member, Knowledge Media Design Institute, University of Toronto, 2008-2009
 Diaspora Task Force, Asia-Pacific Foundation of Canada, 2006 –
 Advisory Committee Member, Math and Public Policy Lecture Series, Fields Institute, Toronto,
 2006-
 Sloan (Foundation) Industry Studies Affiliate, 2005 –
Member, Steering Committee, Knowledge Media Design Institute, 1999 – 2008
 Founding Council member, Community and Urban Sociology section, Canadian Sociology and
 Anthropology Assoc, 1999 –
**Chair, Community and Urban Soc. section, American Sociological Association, 1998-2000; [Chair
 Emeritus & Council Member, 2000-2002].**
 Focus Area Advisor, “Virtual Community and Environments,” Association for Computing Machinery,
 Special Interest Group on Group Supporting Processes [SIGGROUP], 1997–2005.
**Chair, Communications and Information Technologies section, American Sociological
 Association, 2004-2005.**
 Member, Committee on Sections, American Sociological Association, 2003-2006

Nominations Committee, International Network for Social Network Analysis, 2002-2003, 2006.
Member, Web Committee, American Sociological Association, 2002 – 2003
Executive Committee founding member, Association of Internet Researchers, 2001 - 2004.
Committee member, Program on Information Technology, International Cooperation, and Global Security. Social Science Research Council, 2000 – 2002.
Council member, Sociology and Computing section, American Sociological Association, 1997-1999.
Member, Information Highway Working Group [Canada], 1996 - 1997.
Member, Electronic Communities Committee, Association for Computing Machinery, 1996 - 1997.
Awards Committee Member, International Society for the Study of Personal Relationships (Publication, Outstanding Contribution, Teaching), 1995 – 1996.

Founding Electronic Advisor, American Sociological Association, 1995-1997

Founding Chair, Subcommittee on Electronic Publications, Publications Committee, American Sociological Association, 1995 – 1997.

Network Therapy Advisory Committee, Community Occupational Therapy Association, 1994 - 1997.
(Founding) Chair, Committee on Publications, Community and Urban Sociology section, American Sociological Association, 1994 - 1997.

Friends of the Spaced Out Library: The Merrill Collection of Speculative Fiction, 1990 - 1997.

Member, Community and Urban Sociology Section Selection Committee, "Robert Park Award for Outstanding Book," American Sociological Association, 1990 – 1991; 2004-2005.

International Coordinator, International Network for Social Network Analysis, 1988 – Founder and Coordinator, International Network for Social Network Analysis, 1976 – 1988.

Founding Member, Advisory Council, International Network for the Study of Personal Relations, 1986 -
Chair, Community Section Selection Committee, "Lynd Award for Outstanding Contribution to Community Sociology," American Sociological Association, 1987 - 1988; Member 1986 - 1987.

Cooperating Partner, KoprA (Kooperationsnetz Prospektive Arbeitsforschung / Cooperation Network Prospective Work Analysis), Institut für Sozialwissenschaftliche Forschung, Muenchen

Board Member, Community Research Committee, International Sociological Association 1981 – 1986

Council Member, Community Section, American Sociological Association, 1977 - 1980.

Member, Association of Wikipedians Who Dislike Making Broad Judgments about the Worthiness of a General Category of Article, and Who Are in Favor of the Deletion of Some Particularly Bad Articles, but That Doesn't Mean They Are Deletionists, 2007 –

EDITORIAL

CURRENT

Editorial Board, *Field Methods*, 1999 - 2009
Founding Editorial Board, *International Journal of Internet Science*, 2004 -
Editorial Board, *Sociological Analysis* [Albania], 2008 –
Editorial Board, *Mobile Communication Research Annual*, 2006 -

PAST

Founding Editor, *Connections*, 1976 – 1988.

Co-Editor, *Information, Communication and Society*, special issue on Communication and Information Technologies, June 2009 [best papers from American Sociological Association 2008 annual meeting]

Chair, Publications Oversight Committee, Editorial Board Member, *City & Community*, 2005-2008.

Co-Editor, *Information, Communication and Society*, special issue on Communication and Information Technologies, May 2008 [best papers from American Sociological Association 2007 annual meeting]

Co-Editor, *Information, Communication and Society*, special issue of best papers from Internet Research 2007 conference, March 2008.

Editor, Special Issue on “Personal Community Networks”, *Social Networks* 29 (3), July, 2007.

Editor, Special Issue on “Methods of Studying Networks On and Offline.” *Field Methods* 19 (2), May 2007.

Associate Editor, *Social Networks*: 1982 - 2003. (Editorial Board Member, 1977 - 1982)

Co-Book Review Editor, *Social Networks*, 2003 – 2007.

Founder and Chair, Publications Oversight Committee, *City & Community*, 2005-2008. [ASA's 1st section based journal: print/web]

Advisory Board, *Handbook of Online Research Methods*, Sage Publications, 2005 - 2008

Advisory Board, "Structural Analysis" monograph series: Academic Press, 1982 - 1986; Cambridge University Press, 1986 - 1991.

Advisory Board, *Journal of Social and Personal Relationships*, 1983 - 1997

Editorial Advisor, *Journal of Social Issues*, Two special issues on "Social Support," 1983 – 1984.

Editorial Board, "Personal Relationships" book series, Sage Publications, 1983 - 1986

Consulting Editor, *American Journal of Sociology*, 1984 – 1986.

Co-Editor, special issue on social networks, *Journal of Social and Personal Relationships* 9(2) 1992.

Editorial Board, *Cultural Anthropology Methods*, 1992 - 1999.

Editorial Board, *Progress in Communication Science*, 1993 - 1995

Editorial Board, *Sociological Forum*, 1994 - 2003.

Founding Contributing Editor, *New Media and Society*, 1997 – 2006

Editorial Board, *Sociological Inquiry*, 1997 - 2003.

Editorial Advisory Committee, *Canadian Journal of Urban Research*, 1997 - 2000.

Advisory Board, *Sociological Analysis* [Albanian journal of sociology], 1998 - 1999.

Founder, Founding Associate Editor, & Chair Publications Committee, *City & Community*, 1998–2005.

Editorial Board, *Journal of Broadcasting and Electronic Media*, 1999 - 2003.

Editorial Board, *Sociological Perspectives*, 2000 - 2003.

Consulting Editor, *Communication Research*, Special issue on "Communication Technology and Community," 2000-2001.

Co-Editor, Special issue on "The Internet in Everyday Life." *American Behavioral Scientist* 45, 3, 2001.

Founding Editorial Board, *International Journal for Networked and Virtual Organizations*, 2001 - 2006

Working Paper / Technical Reports Editor in Chief, Knowledge Media Design Institute, 2003 – 2006

Technology and Community Editor, *Encyclopedia of Community* (Sage, 2003)

Editorial Board, *Berkshire Encyclopedia of Human-Computer Interaction*, 2003 - 2004

Senior Co-Editor, *Symposium on the History of CITASA, 1988 to 2005: From Microcomputers to Communication and Information Technologies.*" *Social Science Computer Review* 24, 2 (Summer, 2006).

Editor, Technical Report / Working Paper Series, Knowledge Media Design Institute, 2004 -2007 (Co-editor 2001-2004).

RESEARCH

CURRENT.

Network Investigator, "Graphics, Animation and New Media (GRAND)" Network Centre of Excellence, 2010-2015. Network of 50 scholars in Canada studying and developing intersection of new media, computer science, social sciences and humanities. Within GRAND: **Principal Network Investigator, "Digital Infrastructures: Access and Use in the Network Society" (DINS); Principal Network Investigator, "Network Assessment And Validation for Effective Leadership (NAVEL)"; Network Investigator, "Developing Methods for Evaluation of Virtual Worlds and Understanding User Experiences" (EOVW).** Supported by Canadian government's Network Centres of Excellence program, Pew Internet and American Life Project, Sysomos, Telus (DINS); Bardel (EOVW).

Principal Investigator, "Connected Lives and Networked Individualism." 2002-. Analysis of survey and interview data about how the Internet fits in with friendship, community, social capital, domestic relationships and civic involvement. Comparative research being done in Toronto, northern Ontario and Japan. Faculty collaborators: Dean Behrens (northern Ontario); Ken'ichi Ikeda and Kakuko Miyata (Japan). Student collaborators: Kristen Berg, Jeffrey Boase, Juan-Antonio Carrasco, Paul Glavin, Bernard Hogan, Jennifer Kayahara and Tracy Kennedy. Supported by the Social Science and Humanities Research Council of Canada, the Joint Centre for Transportation Research, Intel, Nortel Networks, BCE, Bell University Labs, and Japan National Research Fund.

Principal Investigator, "The Strength of Internet Ties." 2003-. Analysis of large-scale U.S. survey data about how the Internet fits in with friendship, community, social capital, social support, information, and decision making. Student collaborator: Jeffrey Boase. Supported by the Pew Internet and American Life project and the Social Science Research Council of Canada.

Principal Investigator, "Information Technology and Transnational Entrepreneurship." 2003-. An investigation of globalization and glocalization, studying how entrepreneurial networks between Toronto and major Chinese cities are connected, online and offline. Collaborator: Wenhong Chen. Supported by the Social Science and Humanities Research Council of Canada and the Asia-Pacific Foundation of Canada.

Co-Principal Investigator, "The Spatiality of Personal Networks." 2003-. Uses social network data to examine the extent to which physical distance between network members affects their sociability, emotional support, and material aid. Collaborators: Juan-Antonio Carrasco (University of Concepcion,

Chile) and Diana Mok (University of Western Ontario, Principal Investigator). Supported by the Joint Programme in Transportation of the University of Toronto and York University.

Principal Investigator, "Networking in the Global Village: The East York Study of How Personal Communities are Used" 1976 - . Follow-up on the East York study of "Community Ties and Support Systems" (below). In-depth qualitative interviews of subsample of original respondents. Information on the structure and dynamics of community ties of men and women. Current focus is on reciprocity. Multilevel and longitudinal analyses of social support and reciprocity. Faculty collaborator: Ken Frank (Michigan State). Graduate student collaborators: Rochelle Cote, Gabriele Plickert. Supported by the University of Toronto, the Ministry of Health and Welfare, the Ministry of Manpower and Immigration, the Social Sciences and Humanities Research Council of Canada, the (U.S.) Center for the Study of Metropolitan Problems, NIMH.

Principal Investigator, "Changing Internet Use in the United States". 2006-. Longitudinal analysis of annual surveys since 2003 of Internet use in everyday life, based on the World Internet Project's American surveys. Student collaborator: Helen Hua Wang. Faculty collaborator: Jeffrey Cole (University of Southern California). Supported by the Center for the Digital Future, USC.

Co-Principal Investigator, "Networked Households" "Work and ICTs", "Networked Communities. 2007- Three large-scale (N=2200) U.S. national random sample phone surveys about how information and communication technologies are affecting household relations, work ties, and ties with friends, relatives and neighbours. Co-Principal Investigators: Lee Rainie (Pew; all projects); Tracy Kennedy (households), Wenhong Chen (Duke University, work), and Keith Hampton (Annenberg School, University of Pennsylvania, community). Supported by the Pew Internet and American Life Project.

Co-Investigator, "China Internet Project", 2006- Analysis of Internet use in seven major Chinese cities, using survey data from the World Internet Project. Collaborators include: Guo Liang (Chinese Academy of Social Sciences), Wenhong Chen (Duke University) and Helen Wang Hua (Annenberg School, University of Southern California). Various supporters, including Markle Foundation.

Co-Principal Investigator, "Egotistics." 2005- Development of software for personal network analysis. Collaborators: Bernie Hogan (Oxford), Wojciech Gryc (Oxford). Supported by the Knowledge Media Design Institute.

PAST

Principal Investigator, "Hyperconnected Organizational Networks On and Offline." 2001-2006. Analysis of social networks, information flows and media use in organizations. Student (and then Faculty) Collaborator: Anabel Quan-Haase (University of Western Ontario). Organizational Collaborators: Joseph Cothrel, Richard Livesley. Supported by IBM Institute of Knowledge Management, Communication and Information Technology Ontario, Mitel Networks, and Bank of Montreal.

Consultant, "Deconcentration and Social Capital: Assessing the Impact of Relocation in Three Urban Neighborhoods," 2003-2005. Susan Greenbaum (Anthropology, University of South Florida, Principal Investigator). Advising on social capital, research design and research analysis in study of the residents of US "Hope VI" social housing projects. Supported by the (US) National Science Foundation.

Principal Investigator, "Communication Tools: Social Design of Technology." 2003-2004. Analysis of information flows, information brokerage, and social networks within a large organization. Student collaborator: Anabel Quan-Haase. Supported by Communications and Information Technology Ontario and Bank of Montreal

Principal Investigator, "Wired Suburbs" 1996 - 2004. Ethnographic and survey-based study of how living in a new Toronto-area suburban development ("Netville") with excellent broadband connectivity

affects women's and men's relations of work and community online and offline in the home, neighbourhood, and non-locally. Collaborator: Keith Hampton (Annenberg School of Communication, University of Pennsylvania). Supported by the Social Science and Humanities Research Council of Canada, and Communications and Information Technology Ontario.

Principal Investigator, "The Interplay between Social Networks and Computer-Supported Communication Networks" 1999-2001. Analyzes a variety of datasets studying social networks of work and community to discern regularities in kinds of social relationships and social networks, using different kinds of communication media. Doctoral student collaborator: Emmanuel Koku. Supported by Bell University Laboratories.

Co-Principal Investigator, "Double Digital Divide." 2000-2001. Uses survey data from Canada and the U.S. to analyze the extent to which the spatial segregation of the poor and visible minorities reinforces their relative lack of access to computers in general and the internet in particular. Co-Principal-Investigator: Eric Fong. Supported by the Office of Learning Technologies (Human Resources Canada); Advanced Micro Devices. Student collaborators: Wenhong Chen, Melissa Kew, Rima Wilkes.

Principal Investigator, "Modeling and Developing Tools for Ad Hoc Networking: Computer, Communication, Work and Community." 2001-2002. How do people communicate and acquire knowledge in situations where they work and find community in fragmented, sparsely-knit, multiple social networks? Doctoral student collaborator: Anabel Quan Haase. Supported by Communication and Information Technology Ontario and Mitel Networks.

Co-Investigator, "Survey2000 and Survey2001", 1998-2002. Member of a team responsible for design and analysis of social network, internet and community questions on the National Geographic web survey ("Millennium 2000") of 60,000 adults worldwide: their mobility, connectivity, civic involvement, and tastes. Similar role in follow-up study comparing web visitors/users with a control sample. Principal Investigator James Witte (Clemson Univ.). Collaborators on these modules: : Prof. Keith Hampton. Hampton (MIT); Doctoral students: Jeffrey Boase, Wenhong Chen, Tracy Kennedy, Anabel Quan-Haase. Master's students collaborators: Bernard Hogan, Inna Romanovska, Nathaniel Simpson. Supported by the National Geographic. Society

Principal Investigator, "Scholarly Network Studies." 1996 - 2003. Studies of how computer mediated communication affects scholarly interaction at two invisible colleges: an international human development research group ("GlobeNet") and a Toronto-based network ("TechNet") of computer scientists, social scientists, and advanced creators of computer applications. Uses survey, ethnographic and bibliometric analyses. Faculty Collaborator: Howard White (Drexel University). Doctoral student collaborators: Emmanuel Koku and Nancy Nazer. Supported by the TeleLearning Network ,the Social Science and Humanities Research Council of Canada, and the Policy Research Secretariat (overall trends analysis).

Principal Investigator, "The Interplay between Social Networks and Computer-Supported Communication Networks." 1999-2001. Analyzes a variety of datasets studying social networks of work and community to discern regularities in kinds of social relationships and social networks, using different kinds of communication media. Doctoral student collaborator: Emmanuel Koku. Supported by Bell University Laboratories.

Principal Investigator, "Changing Conceptualisations of Community in the Networked Society." 2001. Identifies and analyses the variety of communities in contemporary developed nations. Investigates community as: local area, social networks, virtual communities, shared interests, subjective social identity, moral communities. Supported by Law Commission of Canada.

Principal Investigator, "The Place of Computer-Supported Communications at Work: 'Cerise and Indigo'" 1992-2000. Design and analysis of a series of field trials, surveys and experiments on the ways in which people use video-enhanced computerized communication (and other communications media) of dispersed work sites in southern Ontario. Research encompasses other forms of communication (e.g., computer-mediated learning), and includes collaborative work with sociologists, anthropologists, computer scientists, information scientists, communication scientists, and industrial engineers in universities, the private sector, and government. Co-Investigator: Caroline Haythornthwaite (University of Illinois). Doctoral Student Collaborator: Laura Garton. Supported by the Natural Sciences and Engineering Research Council of Canada, the Information Technology Research Ctr., the Ontario Technology Fund, and the Social Science and Humanities Research Council of Canada.

Co-Investigator, "Projecte Internet Catalunya" 2001-2002. Analysis of a 3,000-adult survey of Catalans, inquiring into the relationship between Internet use and social networks, identity, self-enhancement, self-empowerment, and social mobilization. Collaboration with Manuel Castells (Principal Investigator) and Imma Tubella. Supported by Generalitat [Government] de Catalunya and the Universitat Oberta de Catalunya.

Co-Investigator, "Teleworkers: Work, Organizational, Domestic and Community Relations." 1993-2000. Study of teleworkers in a large Canadian high-technology organization. What kinds of professional and managerial jobs are amenable to teleworking [telecommuting]? How does teleworking affect involvements at work and after work? Principal Investigator, Janet Salaff. Doctoral Student Collaborator: Dimitrina Dimitrova. Supported by Bell Canada and the Social Sciences and Humanities Research Council of Canada.

Principal Investigator, "Social Networks of Alcohol and Drug Users" Study." 1988 - 1996. Literature review of how community social networks affect alcohol and drug use. Survey and interview-based study of the socially-close ties of users of alcohol and illicit drugs. How social networks affect the use of such substances. 225 respondents interviewed in 1993. Technical report of the Canadian National Alcohol and Drug Survey. Supported by Canadian Ministry of Health and Welfare.

Consultant, "Networks, Community and Ethnicity in Bulgaria." 1990 - 1992. Investigations of community in Sofia and interethnic relations throughout Bulgaria. In cooperation with the Inst. of Sociology, Bulgarian Academy of Sciences.

Director, "Structural Analysis Programme." 1979-1982. The Programme was a collaborative effort by a research group of Univ. of Toronto sociologists. Its approach emphasized the discovery of underlying structural patterns, and how these patterns affected behavior. The Programme sponsored research from this common structural approach into a wide range of substantive areas. A book of articles principally derived from the program was published by Cambridge University Press in 1988: *Social Structures: A Network Approach*.

Director, "Community Ties and Support Systems." 1971-1974. Analysis of the structure of urban networks of Torontonians and how these ties provide assistance in dealing with contingencies. Primary data source is 845 interviews with adult residents of the Borough of East York. Additional fieldwork and participant - observation in the use of network resources at the Neighbourhood Information Centre, East York. Supported by the Ontario Ministry of Health, the Laidlaw Foundation, the Canada Council and Bell Canada.

Director, "Public Participation in Transportation Decision-Making." 1973-1976. Policy review of strategy and tactics of new process of wider decision-making in transportation planning in North America and a catalogue of cases of recent experiences of public involvement. Supported by the Ontario Ministry of Transport.

Director, "High-Rise, Low-Rise, Community Ties." 1972-1973. Analysis of the East York data, investigating differences between inhabitants of high-rise apartment buildings and of single-family dwelling on a number of measures of social relations and health. The analysis used partial correlation techniques to differentiate between effects related to the different social characteristics of the residents of the two types of dwelling units and effects related to the housing context itself. Supported by the Central Mortgage and Housing Corporation.

Co-Director, "The Yorklea Study of Mental Health in the Community." 1967-1969. Principal responsibility for the design, conduct and analysis of an 845- respondent survey. Effects of social characteristics (e.g., gender, socioeconomic status), socially-close interpersonal ties and social network structure on the prevalence of stress and mental distress and the use of formal and informal supportive resources. The sociological data formed the basis for the "Community Ties and Support Systems" study (see above). Supported by the Clarke Institute of Psychiatry.

Director, "Self-Conceptions and Urban Participation of Black and White Adolescents." 1969-1971. Computer-based analysis of the relationship of social positions, social contexts and reference groups with self-conceptions and attitudinal, spatial and relational cosmopolitanism. Further analysis of School Integration Research Project. Supported by the Canada Council.

Research Associate, "School Integration Research." Harvard Graduate School of Education, 1965-1968. Relationship of integration experience to selected sociological variables. Advisor on research philosophy and design; major contributor to preparation of questionnaire and codebook; construction of intensive interview and codebook concerned with perception of self, school and race; supervisor of interviewing and coding. Construction of "Who Am I Dictionary" for the computer-based content and analysis of self-conceptions. Supported by the Carnegie Corporation and the National Science Foundation.

RESEARCH AWARDS [Small grants not included]

CURRENT SUPPORT

Network Investigator, "Graphics, Animation and New Media (GRAND)" Network Centre of Excellence, 2010-2015. Within GRAND:

Principal Network Investigator, "Digital Infrastructures: Access and Use in the Network Society" (DINS) \$150,000-\$250,000;

Principal Network Investigator, "Network Assessment And Validation for Effective Leadership (NAVEL)" \$150,000-\$250,000;

Network Investigator, "Developing Methods for Evaluation of Virtual Worlds and Understanding User Experiences" (EOVW). \$30,000

‘Telus Canadians and Technologies Survey,’ 2009. In kind valued at \$120,000.

“Networked Living: The Household, Work and Community,” Three large-scale surveys by the Pew Internet & American Life Project. Each valued in kind at \$120,000+. 2007-2008.

“Internet Use in the United States.” Three large-scale surveys by the Center for the Digital Future, University of Southern California.” Each valued in kind at \$120,000+ 2006-

“Connected Lives and Networked Individualism: Urban-Rural Comparisons” Intel Research. 2006-2009. US\$180,000.

"Managing Social Capital and Domestic Relations On and Off Line in Urban and Rural Ontario. 2006-2009. Social Science and Humanities Research Council of Canada, \$120,000

PREVIOUS SUPPORT

“Studies in Computer Supported Social Networks.” 2004-2008. Microsoft Research. US\$18,000.

“Riding the Trans-national Tide.” 2006. Asia-Pacific Foundation. \$5,000.

“Connected Northern Lives.” 2005-2007. Nortel Networks, BCE and Bell University Laboratories. \$205,000.

“Netting Together: How is the Internet Affecting Community.” 2003-2006. Social Science and Humanities Research Council of Canada. \$145,000. [*ranked 3rd of 119 proposals*]

“Information Economy and Transnational Entrepreneurship: Knowledge Dissemination.” 2006-2007. Social Science and Humanities Research Council of Canada, \$49,000.

“Information Economy and Transnational Entrepreneurship.” 2003-2006. Initiative for the New Economy, Social Science and Humanities Research Council of Canada, \$185,000. [*ranked 1st of 44 proposals*]

"Community Ties and Support Systems." 1971-1973. Ontario Ministry of Health, \$32,500; Laidlaw Foundation, \$18,000; Canada Council, \$4,911.

"High-Rise, Low-Rise: The Effects of High-Density Living on Community Ties." 1972. Canadian Ministry of State for Urban Affairs, \$4,985.

"The Multiple Communities of Modern Urbanites." 1972-1973. Urban Environments Study, Bell Canada, \$6,000.

"Accessing Resources in the Community." 1977. Urban Housing Markets Program, Center for Urban and Community Studies, Univ. of Toronto. \$8,510.

"Community Needs and Support Networks in East York." 1977. Canadian Ministry of Manpower and Immigration. \$67,384.

"East York Community Resources Project." 1978. Canadian Ministry of Manpower and Immigration. \$12,816.

"East York Community Ties Study." 1978. Social Sciences and Humanities Research Council of Canada. \$9,923.

"East York Social Network Study." 1978--Connaught Fund, Univ. of Toronto, \$11,350; 1980--Center for Studies of Metropolitan Problems (NIMH), US\$32,628; 1980-1983--Structural Analysis Programme, Univ. of Toronto, \$5,000.

"Community Through the Life-Course." 1981. Social Sciences and Humanities Research Council of Canada, Strategic Grant for the Study of Population Aging, \$27,210; Gerontology Programme, Univ. of Toronto, \$3,000.

"The Place of the Neighborhood in the Overall Community." 1982. Social Sciences and Humanities Research Council of Canada. \$15,031.

"The Influence of Social Network Characteristics on the Availability of Support." 1984. Social Sciences and Humanities Council of Canada. \$21,000.

"Delivering Social Support Through Social Networks." 1986-1987. Canadian Ministry of Welfare, National Welfare Grants. \$26,378.

"Integrating the Analysis of Network Structures, Dyadic Ties and Personal Attributes: Implications of Personal Communities and Social Support." 1987. Social Sciences and Humanities Council of Canada. \$13,280.

"Aging and Changes in Family, Occupational and Residential Status: A Longitudinal Study of Consequences for Social Networks and Social Support." 1988. Social Sciences and Humanities Research Council of Canada,

- Strategic Grant program for the Study of Population Aging, \$17,655. Gerontology Programme, Univ. of Toronto, \$1,000.
- "The Network Basis of Alcohol and Drug Use: Literature Review and Research Design." 1988. Health and Welfare Canada, \$8,001.
- "The Implications of Telephone Networks for Social Networks." 1989. Social Sciences and Humanities Research Council of Canada, Strategic Grant program for the Human Context of Science and Technology. \$7,790.
- "The National Alcohol and Drug Study: Literature Review, Descriptive Report and Ancillary Reports." (with Scot Wortley and Beverly Wellman), 1989 - 1992. Health and Welfare Canada, \$70,000.
- "Supportive Community Networks: Implications for Mental Health and Mental Disorders." 1989 - 1990. Health and Welfare Canada, \$11,204.
- "Video-Enhanced Computer Supported Cooperative Work." (with Marilyn Mantei, Ronald Baecker and William Buxton), 1989 - 1991. Natural Sciences and Engineering Research Council of Canada, \$370,002.
- "Kinship in Social Networks." 1991. Demographic Review Secretariat, Health and Welfare Canada. \$5,000.
- "Assessing the Impact of 'Global Village' Telecommunications on Community and Social Support." 1990 -1991. Social Sciences and Humanities Research Council of Canada, Strategic Grant program for Science and Technology Ethics and Policy, \$32,036.
- "The Impact of Social Networks on Alcohol and Drug Use." 1991-1993. National Health Research and Development Program \$15,000, Health Promotion Directorate, Health and Welfare Canada. \$26,685.
- "Using Personal Community Networks: Comparative Analyses." 1991 - 1994. Social Sciences and Humanities Research Council of Canada. General Research Grant, \$101,000.
- "Analyses of Social Networks: Supportive, Virtual and Abusive." 1994. Summer Experience Development Program, Human Resources Development Canada, \$8,160.
- "Ontario TelePresence Project." (with William Buxton, Ron Baecker, Marilyn Mantei), 1990 - 1991. Information Technology Research Ctr., \$62,150. 1991 - 1996, Ontario Ministry of Science and Technology, IBM, Bell Canada, etc. \$2,600,000+.
- "The Social Implications of the Virtual Workplace." 1994-1995. Centre for Information Technology Innovation; Industry, Sciences and Technology Canada, \$12,650
- "The Place of Computer-Supported Communication in Co-Workers' Relationships: The Interplay of Computer Networks, Video Networks and Social Networks." 1992-1995. Social Science and Humanities Research Council of Canada Strategic Grant program for Science and Technology Ethics and Policy, \$171,716.
- Halbert Exchange Fellowship to the Hebrew University, Jerusalem. 1995. \$5,000.
- "The Personal Networks of Communities and Workgroups." 1994-1997. Social Science and Humanities Research Council of Canada, \$113,812."
- Teleworking Employees: Networking and Work-Family Linkages." (Co-investigator with Janet Salaff). 1995-1998. Social Science and Humanities Research Council of Canada, \$114,970; Bell Canada, \$207,980.
- "The Policy Implications of Computer-Supported Communication Networks of Work and Community." 1995-1998. Social Science and Humanities Research Council of Canada, \$101,500.
- "Integrated Community Networks: How and What Forms of Computer Mediated Communication Do People Use in a Wired Suburb." 1998-1999. Communications and Information Technology Ontario, \$17,000.
- "Ethereal Colleges: Scholarly Networks in a World of Computer Mediated Communication." 1996-1999 Telelearning Network Centre of Excellence, 1996-1998, \$60,000; 1998-1999, \$28,000.
- "Computer Networks as Social Networks: Wired Communities and Scholarly Communities." 1997-2000. Social Science and Humanities Research Council of Canada. \$80,000.
- "Invisible Colleges – Scholarly Networks Thematic Review." 1998-1999. Social Science and Humanities Research Council of Canada and Policy Review Secretariat Project on Trends: Technological Change and the Information Revolution, \$5,000.
- "Mapping and Using Relationships Based on Network Analysis and Related Behavioural and Sociological Assessment and Modelling Techniques." 1999-2000. Bell Canada University Laboratories. \$46,546.
- "Using Relational and Social Network Information to Enhance Unified Communication." 2000-2001. Bell University Laboratories. \$74,019.

“Double Digital Divide.” 2000-2001. Office of Learning Technology, Human Resources Canada, \$25,000.

"Changing Conceptualisations of Community in the Networked Society." Law Commission of Canada. 2001. \$15,000.

“Women in Cyberspace: How Living in a Wired Suburb Affects Domestic Work, Paid Work and Networking.” 1998-2001. Social Science and Humanities Research Council of Canada, \$129,600.

“Developing the Virtual Campus.” 2000-2001. Co-investigator with Mark Chignell, Gale Moore and monica schraefel. Bell University Laboratories. \$140,000.

Survey 2001: Information Technology's Impact on Community, Culture and Conservation." 2000-2002. Co-investigator with James Witte, Catherine Mobley. (US) National Science Foundation, National Geographic Society. US\$487,761.

“Knowledge Management in Networked Organizations.” 2001-2002. IBM Institute for Knowledge Management, US\$15,000.

“Communication Tools: Social Design of Technology.” 2003-2004. Principal Investigator. Communications and Information Technology Ontario and Bank of Montreal, \$30,000.

“Modelling and Developing Tools for Ad Hoc Networking: Computer, Communication, Work and Community.” 2001-2003. Communication and Information Technology Ontario and Mitel Networks. \$90,000.

"Canadian Community Cohesion and Civic Involvement in a Networked World." 2002-2004. Federalism and Federation Program, Social Science and Humanities Research Council of Canada, \$39,352.

“The Strength of internet Ties.” Pew Internet and American Life Project. 2004. US\$120,000.

BOOKS and SPECIAL JOURNAL ISSUES

2000-2010

- Michael J. Stern, Jessica L. Collins and Barry Wellman, editors, special issue on "The Internet in Rural North American Life," *American Behavioral Scientist* 53: forthcoming
- Christena Nippert-Eng and Barry Wellman, editors, special ASA Communication and Information Technologies section on social movements on and offline, *Information Communication & Society*, 13, 3 (April, 2010)
- Christena Nippert-Eng and Barry Wellman, editors, special ASA Communication and Information Technologies issue, *Information Communication & Society*, 12, 4 (June, 2009)
- Keith Hampton and Barry Wellman, editors, special ASA Communication and Information Technologies issue, *Information Communication & Society*, 11, 4 (June, 2008)
- Caroline Haythornthwaite and Barry Wellman, editors, special Association of Internet Researchers issue, *Information Communication & Society*, 11, 2 (March, 2008):
- Barry Wellman, editor, special issue on Collecting and Analyzing Personal Network Data. *Field Methods*, 19 (2), May, 2007.
- Barry Wellman, editor, special issue on Personal Networks, *Social Networks*, 29 (3), July 2007.
- Halácsy Péter, Vályi Gábor, and Barry Wellman (eds.), *Hatalom a Mobiltömegek kezében* [*Power in the Hands of the Mobile Masses*]. Budapest: Magyar Telekom and Média Oktató és Kutató Központ: 2007.
- Barry Wellman and Ronald Anderson, editors, 2006. *History of CITASA [the Communication and Information Technologies section of the American Sociological Association] From Microcomputers to Communication and Information Technologies*. Special issue of *Social Science Computer Review* 24, 2 (Summer, 2006): pp. 139-171.
- Barry Wellman, "Technology and Community" section editor (50 articles), *Encyclopedia of Community*, edited by Karen Christensen and David Levinson. Thousand Oaks, CA: Sage. 2003.
- Manuel Castells, Imma Tubella, Teresa Sancho, Isabel Diaz de Isla, and Barry Wellman. 2002. *La Sociedad Red en Catalunya: Un Analysis Empírico*. Barcelona: Universitat Oberta Catalunya. <http://www.uoc.edu/in3/pic/esp/pic1.html>. [Translated into Catalan as *La Societat Xarxa a Catalunya: Anàlisi Empírica*, 2003; Translated into English as *The Network Society in Catalonia: An Empirical Analysis*, 2003]. Revised printed version, *La Societat Xarxa a Catalunya*. Barcelona: Random House Mondadori, 2003. [co-author]
- Barry Wellman and Caroline Haythornthwaite, editors, *The Internet in Everyday Life*. [expanded and revised version of journal: 22 original articles]. Oxford: Blackwell, 2002. [co-editors]. Forthcoming in Chinese translation by Peking University Press, Beijing.
- Caroline Haythornthwaite and Barry Wellman, editors, "The Internet in Everyday Life." Special issue of *American Behavioral Scientist*, November, 2001 [9 original articles]. [co-editor]

1988-1999

- Barry Wellman, ed., *Networks in the Global Village*. [collection of 10 original articles.] Boulder, CO: Westview Press, 1999.
- J. Jill Sutor, Barry Wellman and David Morgan, eds., Special issue on "Change in Networks." *Social Networks* 19, 1 (January, 1997).
- Barry Wellman and S.D. Berkowitz, eds., *Social Structures: A Network Approach*. [Collection of 18 original chapters.] Updated edition. Greenwich, CT: JAI Press, 1997. [primary editor]
- Robert Milardo and Barry Wellman, eds., "Social Networks." Special issue of the *Journal of Social and Personal Relationships* (2), August, 1992. [co-editor]

Marc Eliany, Norman Giesbricht, Mike Nelson, Barry Wellman and Scot Wortley and June Corman. *Alcohol and Other Drug Use by Canadians: A National Alcohol and Other Drugs Survey (1989) Technical Report*. Ottawa: Minister of Supplies and Services (1992). [secondary author]

Barry Wellman and S.D. Berkowitz, eds. *Social Structures: A Network Approach*. [Collection of 18 original chapters.] Cambridge: Cambridge Univ. Press, 1988. [primary editor].

KEYNOTE ADDRESSES

2009

- Barry Wellman, "Connected Lives: The New Social Operating System." IBM Advanced Management Academy (via teleconferencing from Toronto), October
- Barry Wellman, "T ∩ ICTs → NI: The Turn toward Networked Individualism at the Intersection of Transportation and Information/Communication Technologies." International Conference on Frontiers in Transportation Research, Niagara-on-the-Lake, Canada, August.
- Barry Wellman, "Using Social Networks to Add Value in the Triple Revolution." Value Network Analysis Workshop, Centre for Social Innovation, Toronto, March.
- Barry Wellman, "Connected Lives: The Triple Revolution of the Personal Internet, Personal Mobile Connectivity and Social Networks." KMDI@13 Lecture Series, Knowledge Media Design Institute, University of Toronto, January, 2009

2007

- Barry Wellman, "'The City Has Come to Us': The Impact of Broadband Communication on Chapleau, the Residents of an Isolated Northern Ontario Town." Chapleau Research Summary & Results Meeting, University of Toronto, December 2007
- Barry Wellman, "When Computer Networks Meet Social Networks," Social Networking Conference, University of Toronto, November 2007
- Barry Wellman, "Connected Lives: The Triple Revolution" IBM-CASCON, Toronto, October 2007
- Barry Wellman, "The Implications of the Network Revolution for Information Technology and Human Services." International Conference of Human Services Information Technology Applications (HUSITA), Toronto, August, 2007.

2006

- Barry Wellman, "Connected Lives and Networked Individualism: The Internet in Everyday Life." Inaugural S.D. Clark lecture, University of Toronto, October 2006. [Broadcast on "Big Ideas," *TV Ontario*, March 10, 2007.]
- Barry Wellman, "Connected Lives and Networked Individualism." *Information, Communication and Society* Tenth Anniversary Conference, York, UK, September.
- Barry Wellman, "The Implications of the Internet for Social Transformation: A Review of the Evidence from the Developed World." Conference on Eurasia, State Department, Arlington, VA, August 2006.
- Barry Wellman, "Mindsets for Editing and Writing Scholarly Papers." Conference: A Escrita e a Edição en Ciências Sociais e Políticas, Higher Institute of the Social Sciences and Politics, Technical University of Lisbon, June 2006.
- Barry Wellman, "Connecting Lives through Netting Together." Symposium on Networks in Context: The Interpenetration of Social Networks and Culture. University of Pennsylvania, March 2006.

2003-2005

- Barry Wellman, "Connected Lives" Social Informatics Fair, Kyoto, Japan, September, 2005.
- Barry Wellman, "New Directions in Social Network Analysis." Inaugural Japanese Social Network Conference, University of Kyoto, September, 2005.
- Barry Wellman, "The Internet +/- 10 Years: What We Know; What We Study." Taiwan Academy for the Information Society, Yuan Ze University, Chung Li, Taiwan, December 2004.
- Barry Wellman, "Social Networks and Social Capital: Theory, Measurement and Experience." Expert Workshop on the Measurement of Social Capital for Public Policy, Policy Research Secretariat, Ottawa, June 2004.
- Barry Wellman, "From Bounded Groups to Border-Crossing Networks." Conference on Border Crossings, Social Networks and Technology." Claremont University, Claremont, CA, April 2004.

- Barry Wellman, "The Internet in Everyday Life and the Turn Towards Networked Individualism." Colloque Communautés Virtuelles, Université du Québec à Montréal, November 2003.
- Barry Wellman, "The Networked Future of Community." Community and Technology conference, Amsterdam, September 2003.
- Barry Wellman, "The Mobile-ized Society: In Theory and in Practice." Information, Communication and Society Research Symposium, Oxford Internet Institute, Oxford, UK, September 2003.
- Barry Wellman. "The Internet in Everyday Life." Computer Networks and Social Networks International Conference, Haifa, August 2003.
- Barry Wellman, "The Internet in Everyday Life." First Finnish Social Network Conference, Tampere, Finland, June 2003.
- Barry Wellman, "Neighboring and Distancing: On and Off Line." Home Informatics Technology Conference, , University of California, Irvine, April 2003.
- Barry Wellman, "Social Engagement of the Internet Generation Across Cultures." Universiteit van Tilburg, Netherlands, 75th Anniversary Lustrum. By Video, March 2003.

2000-2002

- Barry Wellman, "The Networked Nature of Communities Online and Offline." Conference on 'Netting Citizens': the CTPI Conference on Exploring Citizenship in an Internet Age. Faculty of Divinity, University of Edinburgh, Nov 2002.
- Barry Wellman, Anabel Quan-Haase, Jeffrey Boase and Wenhong Chen. "Examining the Internet in Everyday Life." Euricom Conference on e-Democracy and e-Government. Nijmegen, Netherlands, Oct 2002.
- Barry Wellman, "Towards a Networked Society: Computer Networks Meet Social Networks." Webshop Summer Institute, US National Science Foundation, College Park, MD, June 2002.
- Barry Wellman, "The Rise of Individualized Networking." Information Technology, International Cooperation and Global Security Summer Institute, Social Science Research Council, New York, June 2002.
- Barry Wellman, "Designing Communities of Practice." Innovation Laboratory, Sloan School of Business, MIT. User Innovation Communities conference, May 2002.
- Barry Wellman, "The Networked Nature of Communities Online and Offline. Conference on 'Netting Citizens': the CTPI Conference on Exploring Citizenship in an Internet Age. Faculty of Divinity, University of Edinburgh, Nov 2002.
- Barry Wellman, "Little Boxes, GloCalization, and Networked Individualism," Digital Cities conference, Kyoto, October 2001.
- Barry Wellman, "La Vie en Réseaux." Conference on Démocraties et Citoyennetés Électroniques Locales, Toulouse, June 2001.
- Barry Wellman, "From Survival to Sustainability." Canadian Learning Networks conference, Toronto, March 2001.
- Barry Wellman, "Living Wired in a Networked World: The Rise of Networked Individualism." Founding conference, Association of Internet Researchers, Lawrence, KS, Sept 2000.
- Barry Wellman, "Globalisation in a Wired World International Conference on Community Informatics, Community Informatics Research and Applications Unit, University of Teeside, Middlesborough, UK, April 2000.

1987-1997

- Caroline Haythornthwaite and Barry Wellman, "Work and Community in Cyberspace." Association for Canadian Studies in the Netherlands and Flanders, University of Antwerp, Sept., 1997. [second author; Presented by Prof. Haythornthwaite.]
- Barry Wellman "Redes Sociales: Analizando la Privatización de la Comunidad en Sociedades Posmodernas: Del Espacio Privado al Ciberespacio." Founding conference of Red-Lat [Network of Latin American Social Network Analysts], Seminario Redes Sociales en América Latina. Pontifical Catholic Univ of Peru, Lima, March, 1996. Also presented at SUR, Santiago, Chile, March, 1996.
- Barry Wellman, "I was a Teenage Network Analyst: From the Loss of Community to the Virtual Community." International Sunbelt Social Network Conference, New Orleans, Feb., 1994.
- Theodore Standing Commemorative Lecturer, SUNY, Albany, April, 1987. Inaugural Lecture, "International Lectures on Sociology," Matsuyama University, Japan, July, 1992.
- Barry Wellman, "The Nature of Network Analysis." First European Social Network Conference, Paris, February, 1987.

INVITED LECTURES

2009

Barry Wellman, “The Triple Revolution: The New Social Network Operating System.” University of Udine, November 2009.

Barry Wellman, “Studying Connected Lives.” “Virtual Community, Citizen Journalism and Vernacular Video” series, School of Journalism, University of North Carolina, Chapel Hill, via Skype, October 2009.

Barry Wellman, “The New Networked Social Operating System,” Clinton School of Public Service, Little Rock, Arkansas, April 2009.

Barry Wellman, “The Triple Revolution: Social Network, Personal Internet and Mobile Access.” Ferritor Distinguished Community Research Lecture, University of Arkansas, Fayetteville, April 2009

2008

Barry Wellman, “Connected Lives: How the Network, Internet and Mobile Revolutions Intersect in the Bronx and Beyond.” Lehman College, Bronx, NY, April 2008.

2007

Barry Wellman, “The Internet in Everyday Life: A North-South (Ontario) Comparison.” Undergraduate Sociology Student Union annual lecture, University of Toronto, December 2007.

Bernie Hogan, Barry Wellman, Paul Glavin and Dean Behrens, “Everyday Exchanges: A Comparison of Rural and Urban Internet Use.” Policy Research Group, Heritage Canada, November 2007

Ben Veenhof, Barry Wellman, Bernie Hogan and Carsten Quell, “Internet and Social Cohesion: Perfect Partners?” Policy Research Group, Heritage Canada, November 2007

“Jon Kleinberg: A Networker’s Appreciation.” Nathan and Beatrice Keyfitz Lecture Series, Fields Institute, Toronto, October 2007.

Barry Wellman, “What is the Internet Doing to Community? – and Vice Versa.” (revised version). Lewis Mumford annual lecture, University at Albany, March 2007.

2006

Barry Wellman, “What is the Internet Doing to Community? – and Vice Versa.” Presented to Annenberg School of Communication, University of Southern California; University of California, Los Angeles (UCLA); Intel Research (Portland, OR); University of Washington. November-December 2006. Each presentation revised.

Barry Wellman, “Connected Lives and Networked Individualism.” Humboldt University, Berlin and (revised version) Budapest Technical University, September 2006.

Barry Wellman, “Networked Media in a Networked Society.” Canadian Film Centre, March 2006.

Barry Wellman, “Connected Lives: How the Internet Combines with Other Communication Media to Provide Social Capital.” Social Capital and Public Policy Seminar, Policy Research Initiative, Government of Canada, Toronto, March, 2006.

Barry Wellman, “A Social Network Analytic Perspective for Computer Scientists” Computer Science Seminar on Social Networks, University of Toronto, February, 2006; revised version, Knowledge Media Design Institute, University of Toronto, March, 2006.

2005

Barry Wellman, “Connected Lives: First Results.” University of Tokyo, September, 2005.

Barry Wellman, “The Networked Transformation of Societies: When Computer Networks and Social Networks Intersect.” Renmin [People’s] University, Beijing, April 2005.

Barry Wellman, “The Networked Community.” MacArthur Workshop on Communities as Adaptive Systems, MIT, Cambridge MA, March 2005.

Barry Wellman, “Studying Connected Lives.” Knowledge Media Design Institute, March 2005.

2004

Barry Wellman, “Measuring Social Capital in the Community: A Social Network and Multilevel Approach.” Expert Workshop on the Measurement of Social Capital for Public Policy, Policy Research Secretariat, Ottawa, June 2004.

Barry Wellman, “Networked Individualism: Findings and Implications for Design Principles.” Microsoft Research, Redmond, WA, April 2004.

Barry Wellman, “Almost Real or Really Normal?” Lecture associated with the premiere of *Almost Real: Connecting in a Wired World*. A National Film Board of Canada film, by Ann Shin. Toronto, March 2004.

2003

Barry Wellman, "When Computer Networks Meet Social Networks: The Rise of Networked Individualism in Mobile-ized Societies." Computer Networks and Social Networks International Conference, Haifa University, August 2003.

- Barry Wellman, "Living Networked in a Wired World." Distinguished Scholar Lecture, Center for Social Informatics, Indiana University, April 2003. *plus* graduate student seminar.
- Barry Wellman, "Neighboring and Distancing: On and Off Line." Keynote address to the Home Information Technology Conference, University of California, Irvine, April 2003.
- Barry Wellman, "Are We Living Wired or Alone?" College Bowl 40th Reunion Address, Lafayette College, April 2003.
- Barry Wellman, "Social Engagement of the Internet Generation Across Cultures." Universiteit van Tilburg, Netherlands, 75th Anniversary Lustrum. Keynote Video Address, March 2003.
- Barry Wellman, Anabel Quan-Haase and Richard Livesley, "Organizational Networks: On and Offline." CITO Innotalk in conjunction with the Information Highways conference, Toronto, March 2003.
- Barry Wellman, "The Internet in Everyday Life." Critical and Cultural Studies of Information Technology." State University at Buffalo, March 2003.
- Barry Wellman, Jeffrey Boase, Wenhong Chen, Keith Hampton, Anabel Quan-Haase, and Isabel Diaz de Isla. "Networking Community: The Internet in Everyday Life at Home in the Community and at Work." Transforming Enterprise: The First International Conference on the Economic and Social Implications of Information Technology," Washington, January 2003.

2002

- Barry Wellman, "Online Social Networks and Their Implications for Religious Culture." Centre for Theology and Public Issues, University of Edinburgh, Nov 2002.
- Barry Wellman, "Living Wired in a Networked World: the Internet in Everyday Life." Oxford Internet Institute, Oxford, UK. Nov 2002.
- Barry Wellman, Anabel Quan-Haase, Jeffrey Boase and Wenhong Chen. "Examining the Internet in Everyday Life." Keynote address to the Euricom Conference on e-Democracy and e-Government. Nijmegen, Neth, Oct 2002.
- Barry Wellman, "The Internet in Everyday Life." Distinguished Visiting Lecturer, Massachusetts Institute of Technology, Sept 2002.
- Barry Wellman, "Netting Together: Has There Been a Turn Towards Networked Individualism?" Inaugural Presentation to the New Directions in Digital Government Research Seminar series and the Cambridge Colloquium on Complexity and Social Networks, National Center for Digital Government, John F. Kennedy School of Government, Harvard University, Sept 2002.
- Barry Wellman, "The Rise of Individualized Networking." Keynote talk to Information Technology, International Cooperation and Global Security Summer Institute, Social Science Research Council, New York, June 2002.
- Barry Wellman, "Towards a Networked Society: Computer Networks Meet Social Networks." Keynote address to the Webshop Summer Institute, US National Science Foundation, College Park, MD, June 2002.
- Barry Wellman, "Designing Communities of Practice." Innovation Laboratory, Sloan School of Business, MIT. Keynote address to "User Innovation Communities" conference, May 2002.
- Barry Wellman, "Using Sociological Analysis to Design for a Mobile-ized Society." Lecture series: Immersive Interaction: How Far Are You Willing to Go?" Interactive Multimedia Arts and Technologies Association, Toronto, May 2002.
- Barry Wellman, "Living Networked in a Wired World." Annenberg School for Communication, University of Southern California, March 2002.
- Barry Wellman, "The Rise of Networked Individualism." School of Social & Decision Sciences, Carnegie Mellon University, March 2002.
- Barry Wellman, "The Internet in Everyday Life." (co-authored with Anabel Quan-Haase, Wenhong Chen and Jeffrey Boase).HCI Institute, Carnegie Mellon University, March 2002.
- Barry Wellman, "Computer Networks as Social Networks." (Virtual) Reading Group on Network and Cluster Analysis, School of Library and Information Science, Indiana University, January 2002. [*As Avatar "Hotep" in a Virtual Space*]

2001

- Barry Wellman and Keith Hampton, "Netville On and Offline." Policy Research Initiatives Conference, Ottawa, December 2001
- Barry Wellman, "Community as Networked Individualism." Policy Research Initiatives Conference, Ottawa,

December, 2001

- Barry Wellman, "The Internet and the Networked Society: Implications for Catalonia." Universitat Oberta de Catalunya, Barcelona, November 2001.
- Barry Wellman, "Little Boxes, GloCalization, and Networked Individualism," Keynote address to the Digital Cities conference, Kyoto, October 2001.
- Barry Wellman, "Studying Social Networks Online and Offline" NTT Communication Laboratories, Kobe, Japan, October 2001.
- Barry Wellman, "Designing the Internet for a Networked Society," Dept of Computer Science, Univ of Toronto, Oct 2001.
- Barry Wellman, "Computer Networks *are* Social Networks," Dept of Sociology, Univ de Toulouse 2 - Le Mirail, June 2001.
- Barry Wellman, "Designing Networkware – Not Groupware – for Computer Supported Social Networks." TorCHI, June 2001.
- Barry Wellman, "A Plague of Viruses: Biological, Computer, Marketing." Canadian Sociology and Anthropology Association, Quebec City, May 2001.
- Barry Wellman, "Studying Scholarly Networks." Science of Collaboratories Seminar, School of Information, Univ. of Michigan, Ann Arbor, June 2001.
- Barry Wellman, "How Canadians Connect with Each Other and the World." Ministry of Intergovernmental Affairs, Privy Council Office, Ottawa, May, 2001.
- Barry Wellman, "Networks Have No Boundaries." Social Structure in a Changing World: Presentations in Honour of Barry Wellman [*"The Barryfest"*]. University of Toronto, April 2001.
- Barry Wellman, "From Survival to Sustainability." Keynote address to the Canadian Learning Networks conference, Toronto, March 2001.
- Barry Wellman, "Consumer Behavior in the Networked World." College of Communication, Univ of Illinois, March 2001.
- Barry Wellman, "Living Networked in a Wired World." Taub Urban Research Center, New York University, March, 2001.
- Barry Wellman, "Networks in the Global Village: Evidence from Studies of Work and Community." Dept of Sociology, SUNY-Stony Brook, Feb. 2001.

2000

- Barry Wellman, "Using Multiple Communication Media in a Networked Society." Bell University Laboratories Discovery Seminar Series, Toronto, Nov 2000.
- Barry Wellman, "Out of the Office into the Home, into the Pocket: Where Users Fit in the Design Loop" panelist, CITO User Interface Technologies Conf, Ottawa, Nov 2000.
- Barry Wellman, "How People Live and Work Online (and Offline) in the Networked Society." Population and Public Health Branch, Health Canada, Toronto, Oct 2000.
- Barry Wellman, "Using the Internet to Build Community." School of Public Administration, University of Kansas, September 2000.
- Barry Wellman, "Globalisation in a Wired World." Keynote address, International Conference on Community Informatics, Community Informatics Research and Applications Unit, University of Teeside, Middlesborough, UK, April 2000.
- Barry Wellman, "Building Virtual Community." Center for the Study of Work, Technology and Organizations, Stanford Univ, March 2000.
- Barry Wellman, "Living and Working Networked in a Wired World." Strategy and Organization Workshop, Rotman School of Management, Univ of Toronto, Feb. 2000.

1999

- Barry Wellman, "Multiplicities, Diversities and Identities." Bellagio (Italy) Center for Study, Nov, 1999.
- Barry Wellman, "Living Networked in an Uncertain World." Univ. of California, Irvine, April, 1999.
- Barry Wellman, "Living Networked in a Wired World." Human Centered Computing Seminar, School of Information Management and Systems and the Department of Computer Science, Univ. of California, Berkeley, March, 1999; Haas School of Business, Univ. of California, Berkeley, March, 1999.
- Barry Wellman and Beverly Wellman, "Men and Women in Networks." Center for Working Families, University of California, Berkeley, March, 1999. [first author]

1998

- Barry Wellman, "Development and Underdevelopment Along the Information Highway: Implications for Work,

- Play, Home and Community” Counselors of Real Estate High-Level Conference. Asheville, NC, Aug, 1998.
- Barry Wellman, “Achievements and Current Directions in Network Research: An International Perspective.” Invited Seminar on “Networks, Localities and Communities: New Directions for Research and Social Policy.” Univ. of Keele, UK, July, 1998.
- Barry Wellman, “From Little Boxes to the Network Society: GloCalized Communities and Organizations.” Electronic Technology and the Dynamics of Everyday Life Symposium, Dept. of Sociology, Univ. of Toronto, June, 1998.
- Barry Wellman, “From Little Boxes to Ramified Networks: A Paradigm Shift.” Canada by Design Visionary Speakers Series, McLuhan Programme, Univ. of Toronto, April, 1998.
- Barry Wellman, “El análisis estructural: del método y la metáfora a la teoría y la sustancia,” Univ Complutense Madrid, May, 1998.
- Barry Wellman, “Virtual Communities as Social Networks.” Dept of Sociology, Florida International Univ, Miami, Feb, 1998.

1997

- Barry Wellman, Laura Garton and Keith Hampton, “How Organizations and Communities Network.” Knowledge Media Design Institute, Univ. of Toronto, Nov, 1997. [first author]
- Barry Wellman, “Virtual Communities: Questions, Theories, Opportunities” Forum, Media-in-Transition Program, Media Lab, Massachusetts Institute of Technology [MIT], Nov, 1997.

1974-1975

- Barry Wellman, "The Community Question." Univ. of Manchester, Feb., 1975; School of Oriental and African Studies, Feb., 1975, London; Inst. for Applied Sociological Research, Nov., 1978, Köln; Oberlin College, April, 1980.
- Barry Wellman and Leslie Howard. "Connections as Structure: Some Implications of the Social Network Approach to Sociology." Univ. of Surrey, England; Nov., 1974. Guildford. [primary author]

INFORMAL TALKS

2000 -

- Barry Wellman, "The Use of Online Social Networks in Coordinating Response to Disasters." Workshop on Applications of Social Network Analysis for Building Community Disaster Resilience, (U.S.) National Academy of Science, February 2009.
- Barry Wellman, Video Seminar, "Networks and Sustainable Housing" Institute without Boundaries, George Brown College, Toronto, March 2007.
- Barry Wellman, Panelist, "Consumer Habits and the Network Society." American Marketing Association, Toronto chapter, October 2006.
- Barry Wellman, "Community On and Off the Internet." Habit@t New Media Program and Knowledge Media Design Institute Workshop on the Internet and Community, Toronto, April 2006.
- Barry Wellman, "Connected Lives and Networked Individualism." Heritage Canada Workshop: "Mapping the Digital Transition – What is the New Normal?" Toronto, March 2006.
- Wenhong Chen and Barry Wellman, "The Transnational Immigrant Entrepreneurship Project." Blue Sky Chinese-Canadian Club, Toronto, February 2005.
- Barry Wellman, participant, "International Workshop on Inverse Surveillance: Cameraphones, Cyberglogs, and Computational Seeing Aids." Baheen Centre for Information Technology, University of Toronto, April 2004.
- Barry Wellman, "Computer Networks as Social Networks." Knowledge Media Design Institute. Guest lecturer, Graduate core course, November 2003.
- Barry Wellman and students, "NetLab Lab Tour." Toronto, October 2003.
- Barry Wellman, "The Descent of the Internet." Canadian Journalism Fellows, Massey College, Toronto, March 2003.
- Barry Wellman, "Work and Network." Knowledge Media Design Institute Core Course, February 2003.
- Barry Wellman, Distinguished Senior Commentator, "Infrastructure: Technological, Human and the Intersection Between the Two." School of Communication, Northwestern University, Evanston, IL, April 2002.
- Barry Wellman, "Networking Canada." Acceptance Speech for Canadian Sociology and Anthropology Association Outstanding Lifetime Contribution Award, Laval University, Quebec City, May 2001.
- Barry Wellman, "Pass It On!" Social Structure in a Changing World: Presentations in Honour of Barry Wellman [*"The Barryfest"*]. University of Toronto, April 2001.

TEACHING AND MENTORING

UNDERGRADUATE COURSES TAUGHT

Advanced Honours Research Seminar, Ethnic and Racial Relations, Introductory Sociology, Modernization and Community, , Social Psychology, Structural Analysis, Technology and Society, Urban Sociology, Urban Studies

GRADUATE COURSES TAUGHT

Community, Information in Society, Research Methods, Social Network Analysis, Technology and Society

TEACHING and MENTORING AWARDS

Barry Wellman Award, established 1990 by Dept. of Sociology, Univ. of Toronto, for year's best undergraduate research paper.

Mentoring Award, First Place, International Network for Personal Relationships, 1998.

Outstanding Teaching Award, Second Place, International Society for the Study of Personal Relationships, 1996.

Teaching praised in "Barry Wellman" *Wikipedia* entry, November 30, 2007: "Students thoroughly enjoy his classes where they are often taught about social networking and various community and technology interactions through an optimistic sociological perspective. As one of his students put it, 'he uses his wit and vast understanding of his field of study to not only teach us about how society has changed and will change as a result of technology, but makes this learning process an interactive and entertaining one as well.'"

TEACHING-ORIENTED PUBLICATIONS

Barry Wellman, "How to Write Real Good." (2006).

Barry Wellman, "Mentoring: A Personal Relationship." *International Network Newsletter* 43 (1998): 5-6.

Barry Wellman, "Urban Sociology: A Canadian Course Syllabus." *Comparative Urban Research* 7, 1 (1979):42-47. [Revised version in *Teaching Community and Urban Sociology* Washington, DC: ASA Teaching Resources Center, 1981. Further revised version in *Urban Sociology Teaching Resources*. Washington, DC: American Sociological Association , 1988.]

TEACHING-ORIENTED WORKSHOPS

Barry Wellman, "The Digital Self." Whittier College, Whittier, CA. November 2006.

Barry Wellman, "Workshop on Writing Refereed Papers for International Journals and Books." Higher Institute of the Social Sciences and Politics, Technical University of Lisbon, June 2006. Two days.

Clarissa Mak, Jeffrey Wong and Barry Wellman. "The Connected Lives Project." 299Y Research Experience Courses Fair, Faculty of Arts and Science, University of Toronto, March 2006.

Lauren Bot, Julie Wang and Barry Wellman, "The Connected Lives Project." High School Mentorship Fair, Faculty of Arts and Science, University of Toronto, May 2005.

Lindsay Cai, Aaron Li and Barry Wellman, "The Connected Lives Project." 299Y Research Experience Courses Fair, Faculty of Arts and Science, University of Toronto, March 2005.

Barry Wellman, Annual lecture to Knowledge Media Design Institute core course, 2001-.

Barry Wellman, "Studying Social Networks Online." Dept de Sociologie, Univ de Toulouse-Le Mirail, June 2001.

Aysan Sev'er and Barry Wellman, "Graduate Workshop on Conference Organizing." Dept of Sociology, Univ. of Toronto, July 2000.

Barry Wellman, "Networks in the Global Village." Long-distance audio workshop with Dept of

Sociology, Texas Wesleyan Univ., May 2000.

Barry Wellman, "Workshop on Writing and Editing." Dept. of Sociology, Univ. of Toronto, annually, 1990 – 1998, 2004-2006.

Barry Wellman, "Networks for Newbies" (3 hours). International Sunbelt Social Network Conference, annually, since 1985-. Plus workshops for national groups in Britain, Bulgaria, France, Hong Kong, Hungary, India, Israel, Japan, Peru, Russia, Spain and Taiwan

2000-2004

"Internet and Society" session, American Sociological Association conference, San Francisco, August 2004
International Board of Advisors, German Online Research conference, Duisburg-Essen, March 2004.
Tour Guide, Tour of NetLab, Association of Internet Researchers Conference, Toronto, October 2003.
Local Arrangements Resource, AoIR Conference, Toronto, October 2003
Chair, Steering Committee AoIR-Toronto, 2002-2003: Organizing group for the 2003 Association of Internet Researchers conference in Toronto
Consultant, "Federalism and Federations Research Workshop," Social Science and Humanities Research Council of Canada and Privy Council Office, May, 2001.
Consultant, IBM Social Technology Group, June 2001: How to Study Social Networks at Work.

Panel (with Caroline Haythornthwaite), "Constructing and Using Social Networks in Cyberspace."

Association for Internet Research founding conf, Lawrence, KS, Sept 2000.

Panel (with Caroline Haythornthwaite), "Community On and Offline." Association for Internet Research founding conference, Lawrence, KS, Sept 2000.

1990-1999

Workshop: "Research Issues in the Design of Online Communities." CHI 99, Pittsburgh, May, 1999.

"Human Centered Computing" Faculty-Graduate Seminar, University of California, Berkeley, 1999.

Program Chair, Community and Urban Sociology section, American Soc Association conference, San Francisco, Aug, 1998.

"Community, City, Cyberspace" session, American Soc Association conference, San Francisco, Aug, 1998.

"Computer Networks as Social Networks" session, International Soc Network conf, Barcelona (Sitges), May, 1998

Advisory Committee & Participant, Workshop on Advances in Organizational and Social Informatics, Bloomington, IN, Nov, 1997.

Sociological Research Association, Annual Meeting and Banquet, Toronto, Aug., 1997

Community and Urban Sociology section reception and executive committee meeting, American Soc Assoc, Toronto, Aug., 1997

"The Internet and the Sociological Landscape," American Soc Assoc, Aug, 1997.

"Social Network Analysis" 10-day workshop for First All-Swiss Doctoral Summer School in the Social Sciences, July - Aug., 1997

"White Tie Event": *Festschrift* for Harrison White, San Diego, Feb, 1997.

Tillyfest, International Conference in honour of Charles Tilly, Univ of Toronto, Oct, 1995.

"Personal Relationships and Social Networks," International Conference on Personal Relationships, Banff, July, 1996.

"Contextual & Structural Perspectives on Relationships," International Society for Personal Relationships, 1993 -

"Network Methods" session, Research Methods committee, International Sociological Association, Bielefeld, Ger, Aug., 1994.

Sessions on: "Computer Networks as Social Networks", "Personal Community: Theoretical Interpretations", "Personal Communities and Social Support: International Perspectives", "Personal Communities through the Life-Cycle". International Sunbelt Social Network Conference , New Orleans, Feb., 1994.

"Networks in the Global Village," American Soc Assoc, Miami Beach, Aug., 1993.

"Personal Communities and Social Support," International Sunbelt Social Network Conference , Tampa, February, 1993; New Orleans, February 1994.

"Introduction to Social Network Analysis" workshops, Sunbelt Social Network Conference , 1989, 1991-

"Networks in the Global Village." International Sunbelt Social Network Conference , San Diego, 1992; Tampa, 1993.

"Telepresence: Its Design and Opportunities for Social Science Research." Institut de Recherche Pluridisciplinaire sur les Environnements d'Apprentissage et de Communication de Savoirs (IRPEACS), Lyon, 1991.

"Politics of Language in Multiethnic Societies," American Sociological Association , Cincinnati, 1991.

Series of Network Analysis sessions, World Congress of Sociology, Madrid, 1990.

Symposium on Network Analysis over a Decade, International Conference on Personal Relationships, Oxford, 1990.

Close Relationships Conference , Nags Head, NC, 1990.

International Symposium on the Ethnic Crisis in Bulgaria, Bulgarian Academy of Science, 1990. [North American co-organizer].

1971-1989

Three sessions on social network analysis, World Congress of Sociology, New Delhi, 1986.

"The Community Question Re-evaluated" session, American Sociological Association , New York City,

1986.

"Networking, Moving, Connecting, Supporting: Getting, Maintaining and Using Supportive Social Networks" (with Beverly Wellman). Wellness '86 conference, Toronto, Dec., 1986.
Computers and Society seminar, McLuhan Programme, University of Toronto, 1985 - 1988.
Structural Analysis session, North Central Sociological Association, 1982.
Social Networks session, American Sociological Association, San Francisco, 1978.
Social Network Symposium, World Congress of Sociology, Uppsala, Sweden, 1978.
"New Directions in Structural Analysis" colloquium, University of Toronto, 1978.
Community session, American Sociological Association, Chicago, 1977.
Conference on Social Network Research, World Congress of Sociology, 1974, Toronto.
"New Algebraic Models for the Study of Social Structure" conference, Cambridge MA, 1973.
"Do Networks Matter?" conference, Camden ME, 1972, sponsored by the Mathematical Social Sciences Board.
"Utopias: Real and Imaginary," Eastern Sociological Society, 1971, New York.
